

"Powder Bowl" Game Rated A Toss-up

Rattlers Victorious In Intramural Play

In the final game of the 1953 softball season at Brevard college, the Rattlers defeated the Warriors by a score of seven to two. These seven runs came off nine hits and four errors by the Warriors.

The outstanding performance of the day was turned in by the Rattler pitcher, Tommy Cassidy. Cassidy used a fast ball and a let-up pitch to good advantage as he held the Warriors to no hits. This was the only no-hit game turned in by any pitcher during the intramural season.

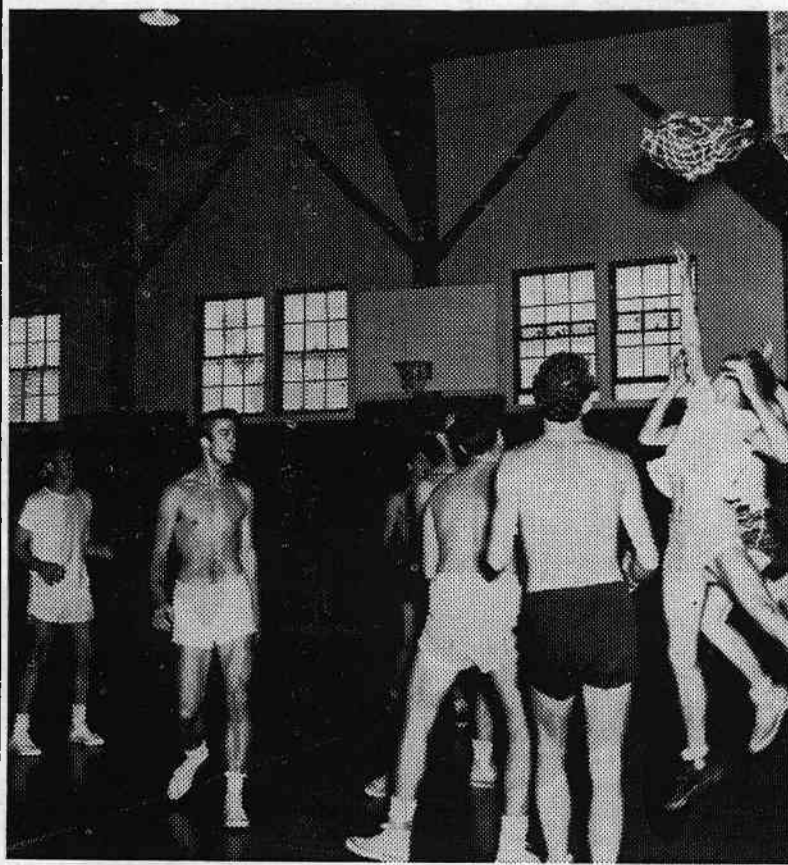

The Warriors two runs came off walks and a single error committed by the Rattlers.

This final win benefitted the Rattlers in taking a clean sweep of the play-off games. They defeated the other three teams in the conference one game each without losing. They could do no more than manage a tie with the Bombers in regular season play.

Records for the season play are as follows:

	Won	Lost	Avg.
Rattlers	3	2	.600
Bombers	3	2	.600
Warriors	2	3	.400
Daydreamers	2	3	.400

The top eleven hitters for the

The first day of basketball practice always proves very tiring as can be noted from the action shot above.

Competition Between Blues And Whites Is Very Strong

Intramural football did not begin on this campus until October 9, but we had a sneak preview of some of the players for the "Powder Bowl" game on Saturday afternoon.

The "Powder Bowl" is something of an innovation on this campus, but should prove quite interesting to both the male and female students. With the campus divided, some very friendly competition should ensue.

Pre-game guesses have the game almost a toss-up. The white boys seem to have the edge in speed, but what the blue boys lack in speed they more than make up with size and power. The strength for the girls is found not in size or speed, but in the mistakes that the other team makes.

Around five intramural teams are expected to be entered in the conference for regular season play. The intramural board is carefully scanning the teams entered with the hope of having the power equally distributed.

season are as follows, each hitting over .500: Byrd, White, Cassidy, Nesbitt, Phipps, Smith, Elliott, Malcolm, Patterson, Willis, Brooks.

WAA Makes Plans For Crowded Season

The Women's Athletic association is an organization composed of all women students. The purpose of this organization is to stimulate interest in athletics and women's gymnastics, and to standardize and promote health and sportsmanship.

President, Jennie Lou Morris; vice president, Joy Warren; and secretary-treasurer, Betty Starnes, are doing some fine work in getting the WAA started in this year's work.

The WAA has been divided into four teams which will compete in the intramural team sports. The sophomores are under the management of their representative, Sally Tysinger, Margaret Hennessee, and Pat Green.

The chairman of each activity is as follows: volleyball, Doris McGaha; archery, Audrey Scheeper; basketball, Dot Wilkinson; softball, Joan Wilson; dancing, Wylladene Duckett; tennis, Celia Sherrill; touch football, Ellen Torrence; badminton, Frances Weaver; ping-pong, Billie Cansler; hiking, Gloria Gilliam.

The WAA is looking forward to a good year, and with the necessary cooperation, it will be

- Feb. 13—Mars Hill, there.
- Feb. 20—North Greenville, here.
- Feb. 25, 26, 27—Tournament.

Sports Co-Ed Style

By JEANNE GLYNN

Archery, tennis, badminton, touch football, and softball are the sports which are currently occupying the girls' time in gym classes. Other students in less active classes can hear the cries of delight as a touchdown is made, or a cry of dismay as an arrow wings its way through the air, only to miss its mark. Softball, however, is a much simpler game. After all there are eight other players on the field and the ball (you hope) may not be hit in your direction! Under the direction of Coach Moseley, we feel certain that your best abilities in sports will have a chance to shine before the year is over.
