Brevard Sends Delegates To UN; Represent Iraq

Tornadoes Move Into Semi-Finals

First-seeded Brevard College, the regular season champion, defeated Lees-McRae, 58-50, in the opening game of the Western Carolina Junior College Conference basketball tournament on February 20, 1963.

Brevard overcame Lees-McRae's control tactics in the second half on the strength of Ray Hoxit's rebounding and the scoring of Joe Forte, who hit 20 points, Gene Allen, who scored 16, and Doug Rogers, who made 13.

Hoxit, playing with a deep gash in his right index finger as the result of an accident three days ago, swept both backboards of rebounds and was primarily responsible for keeping Brevard in a narrow lead through the second half.

See Hawkins, Davis In BLT Production

Terry Hawkins, sophomore day student at Brevard College, will play the romantic lead in the Pulitzer prize-winning play, "You Can't Take It With You", which is being held over by popular request for an added performance Saturday, February 23. This three-act comedy by Moss Hart and George S. Kaufman will be presented by the Brevard Little Theatre at 8 P.M. in the American Legion Building. Admission price is \$1.50 and 75 cents.

Terry plays the role of the boss' son who falls in love with Alice, the only practical and completely sane member of the Vanderhof household. The three generations of this delightfully zany family firmly believe in doing as they please and letting the world and the government look after itself.

Terry transferred to Brevard College from Western Carolina at Cullowhee. His previous acting experience includes "Life with Father" at Brevard High

Riddle, Alumnus, Wins UNC Award

Ernest Riddle, the nephew of Mr. and Mrs. Herman N. Brown, of Brevard, and an alumnus of Brevard College received the "Outstanding Pledge Award" of the Alpha Lambda chapter of the International fraternity of Delta Sigma Pi at the University of North Carolina recently.

The trophy was presented by the fraternity on the basis of athletics, scholarship, personality, participation, and initiative. Mr. Riddle is a 1960 graduate of Brevard High School and a 1962 graduate of Brevard College.

BREVARD'S UN delegates discuss the strategy that they are now employing as an Iraq delegation at the Chapel Hill Model UN Conference. The four-day meet is composed of representatives from N. C. colleges

and universities who debate, in UN fashion, the world's problems. Each group represents a nation of the UN. Steve Clark, Betty Sue Grice, Betsy McLean, Joe Cantey, Richard Howe (adviser), and Lorraine Martin.

Model UN Faces World Crises

Wednesday, February 20, five Brevardians and a faculty adviser traveled to the University of North Carolina. There they will represent the strife-torn country of Iraq in the Model Nations General Assembly. Various colleges and universities annually send delegates, each representing the nations of the world, to discuss vital issues and pressing problems.

Joe Cantey, Steve Clark, Betty Sue Grice, Betsy McLean, and Lorraine Martin have expressed an interest in current events and world affairs. They are attending the assembly to propose Iraq's views on various issues. The group has done considerable research during the past few weeks. Mr. Howe and Mr. Lance are faculty advisers for the group.

Rosman Becomes New Goddard Satellite Tracking Station

Holder Helps Complete List

What's going on in the library? Several students who, incidentally, spend almost as much time in the library as the librarians themselves, have wondered why Mrs. Holder was so involved in a huge stack of books and papers recently.

Mrs. Holder has not joined the F. B. I., but is serving on an important committee. This committee is compiling a list of 20,000 books which should be basic for all junior college libraries.

Junior college librarians from all across the nation, reflecting various academic programs and curricula, are participating in the work which will terminate with a long title: "A Basic List"

MRS. HOLDER, Librarian

Nine miles from Brevard College, in Rosman, N. C., a 5 million dollar Data Acquisition Facility is under construction which will be the second operational Goddard facility of its kind. The Rosman facility will be, primarily, an 85 foot data acquisition antenna site which is part of an ambitious long-range program to provide a network of big dish telemetry sites for future scientific, weather, and communication satellite programs.

The Rosman site lies in a valley or "bowl" which provides excellent natural R F shielding on all sides. It was found to be one of the few locations east of the Mississippi River that met all requirements for interference isolation and freedom from commercial airline communication interference.

The scientific satellite data acquisition facility is scheduled for completion next June.

"Pop" Memorial Fund Develops

A memorial fund in memory of "Pop" Kenerly has recently been established by the Women's House Council and supported by the Student Government Association. Donations to this fund have been generous and all contributions are being deposited to the Building Development Program sponsored by the college and citizens of Brevard. All donations should be made through the Business Department or directly to the Building Program.

Gwen Browning Crowned 1963 Delphian Sweetheart At Dance

The Delphian Sweetheart, Miss Gwen Browning, was crowned at the Valentine Dance, Saturday night, February 9. Gwen is from Clyde, North Carolina, and was graduated from Bethel High School. She was May Queen in her Senior year at Bethel. She is a member of the Mnemosynean Society, the Glee Club, and the Business Club.

Gwen's hobbies are tennis, bowling, dancing, and archery. She prefers slow music to fast and loves a good fiction book.

Warm, out-going, and friendly in personality, Gwen says she loves people and enjoys working with them. She plans to become a nurse and hopes to attend the Winston-Salem School of Nursing next year.
