

## Brevard Plays Chowan Tonight In Region 10

Now that the regular season is over, a new round for the Tornados will begin Friday night, March 6th, at Wingate, North Carolina, in the Region 10 Junior College Tournament.

First round pairings pit North Greenville against Louisburg, Virginia, in the tourney opener, and Brevard taking on Chowan in the final game of the semifinals. The winners will meet in the championship game Saturday night for the right to play in the National Junior College Tournament in Kansas City later this month.

Little is known about the Louisburg quintet but they should give the North Greenville Mounties all the trouble they would like.

Leading the Tornados cagers will be Leahman Stanley and Pete Peters, also on the all-conference team, each averaging

in double figures. Three other players, also averaging in the double figure column, David Cort, Junior Steelman, and Eddie Schwab give Brevard what some call the best starting five in the conference. Larry Burch and Sherman Fearing provide added strength when called upon by Coach Martin.

North Greenville will be led by all-conference Dave McCorkle and Mack Lemmons. Also figuring in the Mountie hopes will be Hall Davis and Dick White, who played key roles in their upset of Brevard in the conference tournament. T. J. Ingle will round out the starting unit for Greenville.

Brevard having defeated Chowan 76-59, during the later part of February will be favored to win this meeting North Greenville in a grudge match

### REQUIEM HONORS JOHN F. KENNEDY

On Passion Sunday, March 15, the Brevard Methodist Church Senior Choir and Brevard College Choir will combine to present A MEMORIAL CONCERT TO JOHN F. KENNEDY. The combined choirs will present the Requiem of W. A. Mo-

zart in tribute to the late President. They will be accompanied by organist Louise P. Miller and directed by Nelson F. Adams. The program will be presented in the Brevard Methodist Church at 7:30 P. M.

### RABBI BLOOM TO SPEAK

Rabbi Bernard H. Bloom of the Jewish Chautauqua Society will be on Campus March 11 and 12. Rabbi Bloom will speak in

chapel March 11, and will speak to religion classes on both days.

Rabbi Bloom is a native of Toronto, Canada. He received his B. A. Degree from the University of Toronto in 1952 and was ordained at the Hebrew Union College — Jewish Institute of Religion in 1957, receiving his M. H. L. Degree.

He is the spiritual leader of Congregation Beth Ha-Tephila in Asheville, North Carolina. He previously served congregations in Lexington, Massachusetts, and served as assistant rabbi at the Temple Congregation Ohavai Sholom in Nashville, Tennessee.

The rabbi has been particularly active in youth work. His special field of interest is history. He lectures on college campuses under the auspices of the Jewish Chautauqua Society, an organization which creates better understanding of Jews and Judaism through education.

Rabbi Bernard Bloom

### Art Students Plan Exhibit

Mr. Timothy Murray, head of the Art Department, has announced that the sophomore painting class plans to exhibit works at the Sixth Carolinas' College Art Annual at the Columbia Museum, Columbia, South Carolina. Exhibition dates will be April 5 - 22. Students planning to exhibit are Richard Jones, Margo Towles, Diane van De Weghe, Mary DeGroat, and Cheryl Greene.

Art students on the college

level from both Carolinas will compete for monetary honor awards. The purpose of the exhibition is to assess comparative values of advanced art students, to enable them to gain experience for national competition, and to permit their public of the future to become familiar with new talent.

Mr. Gudmund Vigtel, Head of the Museum of the Atlanta Art Association will be the one-man jury. The Annual is sponsored jointly by the Art Department of the University of South Carolina and by the Columbia Museum of Art. It is open to all students of art departments of colleges in both Carolinas. The Annual is limited to paintings.

### Students Visit Oak Ridge

A student educational tour will be taken by members of Mrs. Ruth Alexander's biology classes and Miss Bobbie Nicholson's chemistry classes on Saturday, April 11, to the Oak Ridge Institute of Nuclear Studies in Oak Ridge, Tennessee.

The tour involves a visit to the American Atomic Museum and the biological laboratory. Students will also see reactors, isotopes, and computers.

Students planning to make this trip must have their name to the instructors by March 14, in order that all names may be cleared by the Federal Government for adverse activities. Student

## Alpha Beta Gamma Initiates

Sixteen new members were initiated into Alpha Beta Gamma on Thursday, March 5, at 5:30 p. m. in the faculty lounge of the Campus Center Building. The new members are Thomas Blackwell, Donna Blankinship, Melba Blanton, Dana Congdon, Julia Congdon, Lowell Curry, Kirk Floyd, Michall Gillespie, James Hall, Gray Ingram, Robin May, Roder Owen, Antonio Rigual, Ronald Smith, Thomas Werling, and Michael Wilson.

To be eligible for membership in the organization, a student must have a high B or A average in chemistry and a C or better on all other subjects. Students who were already members of the organization are Michael Brown, David Cort, Carl Gilles-

pie, Margaret Harris, Robert Malsby, Jane Martin, Fred Miller, Carl Powell, and Edgar Tanner. Following the initiation service, the group attended a banquet in the faculty dining room.

Alpha Beta Gamma is a national honorary fraternity for chemistry students in Junior Colleges. The first chapter of the fraternity was organized at Asheville - Biltmore College in 1952. The second chapter was organized at Brevard the following year. Now other chapters are located on Junior College Campuses throughout the southeastern states.

The name of the organization originated from the three types of radiation, alpha and beta par-

ticles and gamma rays. The fraternity seal is composed of the chemical symbol for an organic compound, benzene, in black on a gold background with the Greek symbols for alpha, beta and gamma superimposed on the benzene ring.

The purpose of the fraternity is to promote scholarship and an interest in the various fields of science. Activities planned by the group for the remainder of the year include a tour of the Rosman Satellite Tracking Station on March 14, 1964, and a lecture by Dr. Marjorie Crawford of Vassar College on April 9, 1964. Dr. Crawford's visit to the Brevard Campus is being sponsored by the American Chemical Society.

### Dr. Grady Hardin Presents Stimulating Ideas

Through daily worship services, individual conferences, and discussion groups, Dr. Grady Hardin spoke to students on campus this Religious Emphasis Week, presenting a variety of stimulating ideas.

His topic for the Sunday evening worship was God Incognito. "God doesn't show us his face but makes himself known in the common activities of life such as the meeting of our neighbors' needs and the shar-

ing of our own needs."

The subject for the Monday worship was Lively Conjugation. "We cannot determine the meaning of our existence until we discover its meaning in the foundation of being in God."

Life in Particular was the theme of Tuesday's worship service. "We must learn to see life in its overall dimensions, but live where we are."

In an uplifting presentation
