Ussachevsky To Perform At Festival

Freshmen Leaders Elected

Freshman candidates for the offices of president and vice president presented their speeches for the second time in two weeks on September 28. It was necessary that the speeches be given again because at the previous time 2:00 classes prevented their completion.

Thursday, ballots were handed out before speeches began, and marked and returned as soon as they were completed. Results were released late the same evening.

Wayne Morton, from Westminster, South Carolina, became the new freshman class president, and Dan Johnson, from Winter Park, Florida, was elected Vice President. Both are capable young men and should serve the freshman class well. Officers elected in the first freshman election a week ago were Hazel Chapman, S.G.A. representative, and Beth Miller, secretary-treasurer. Congratulations freshman class officers.

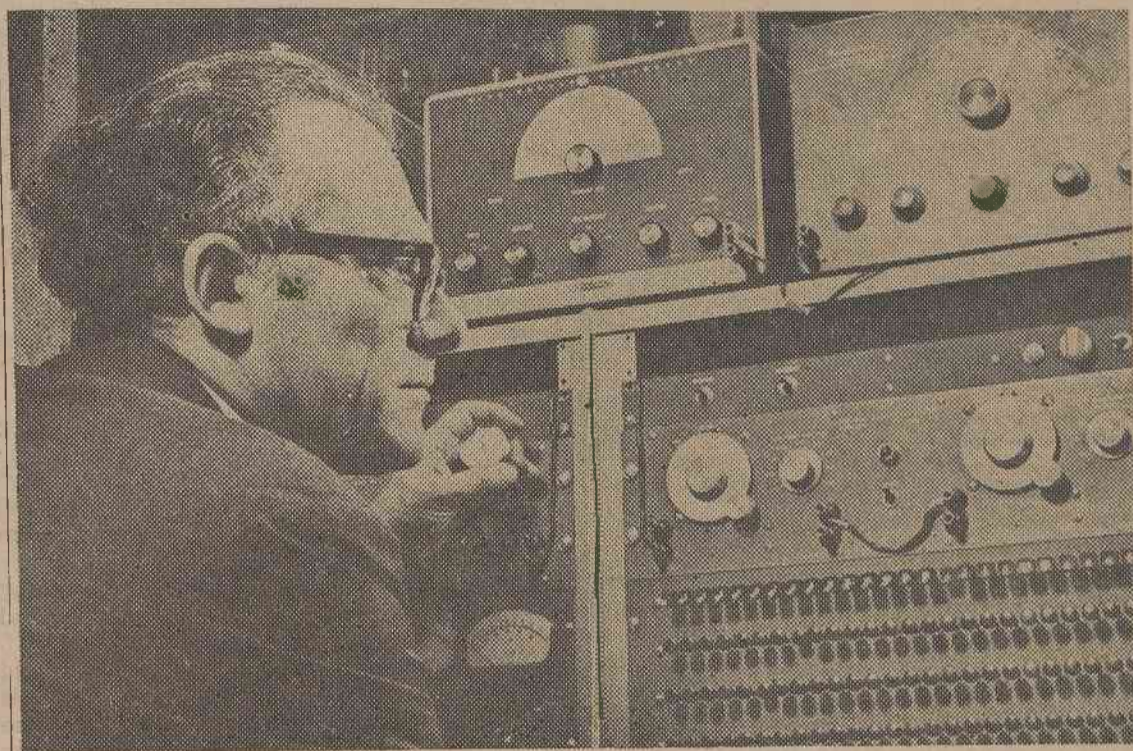

PTK Sale Is A Success

On September 23, Phi Theta Kappa held a sidewalk, closing-out sale in front of the classroom building.

Last year the Book Nook sold various copies of paperback books, Monarch notes, study guides, and maps. Because of the financial difficulties and the change of location of the Student Union, it is not feasible to continue the project this year.

New paperback books were sold for half price and a wide variety of second-hand books were sold for five and ten cents each.

All members of Phi Theta Kappa considered the sale of success because the Book Nook deficit was covered.

DR. USSACHEVSKY is shown with part of the equipment which he uses to produce his electronic music.

Pictured to the left is Vladimir Ussachevsky, chairman of the Committee of Direction of the Columbia - Princeton Electronic Music Center, New York. He will be guest speaker and recitalist during Brevard College's Contemporary Music Festival, beginning Oct. 8.

All musical ensembles will participate in the week's activities including the choir, Glee Club, Brass Ensemble, and the Methodist Church Cancel Choir.

Announcements of the week's activities are posted on the bulletin board. All students, faculty, and staff are invited to attend any or all of the week's events.

Martin Receives Appointment

Mr. Leighton Martin, basketball coach and head of the Physical Education Department, recently attended a meeting of the Executive Committee for Physical Education, a part of the Joint Committee on College Transfer of North Carolina Colleges. Coach Martin is one of nine members on the committee headed by Dr. Barrow, head of the Physical Education Department at Wake Forest. The group met at Coleman Gymnasium at the University of North Carolina, in Greensboro, September 19 and 26.

The committee's functions involves the transfer of physical education and health to the senior college level. It attempts to bring the two within a level of acceptance by all senior colleges for transfer credit.

A recommendation made at the committee meeting stated that physical education and health continue to be required of freshman and sophomore college students. The committee concerns itself with both junior and senior colleges throughout the state.

In referring to physical education, Coach Martin commented, "Regardless of how well a person develops mentally, he certainly needs some type of physical activity in developmental exercise in order that he might enjoy life to its fullest capacity."

SNEA To Begin Tutor Program

The SNEA (Students National Education Association) of Brevard College has adopted a tutoring program as its principal project for the next two semesters. In connection with this project, a meeting of members and non-members, who were interested, was conducted October 2, by Mr. Tawney, advisor for the group.

Plans were made by the group to offer tutoring on the elementary level at Brevard's two elementary schools, Straus and Brevard Elementary.

The areas of emphasis will be math, reading, and spelling with the addition of music, art, and physical education, currently becoming introduced into the elementary level.

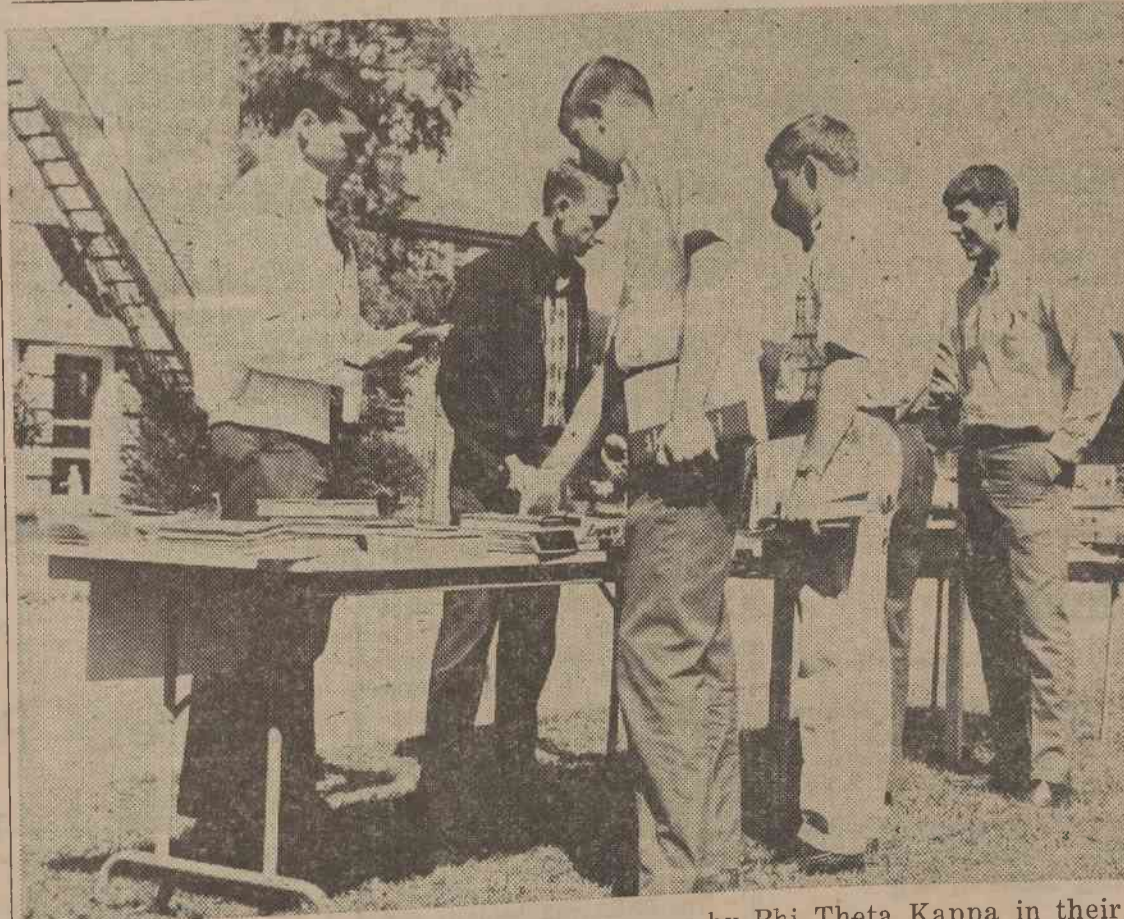

Each tutor must spend two hours per week with his student. The ratio, of course, will be one-to-one with the exception of the music, art, and physical education areas.

Any student, freshman or sophomore, interested in the program should contact Mr. Tawney immediately.

The tutoring program itself is in its third year with the SNEA. For the past two years, emphasis had been placed on the junior high level. However, the Supervisor of Instruction for Transylvania County, Mrs. Hilda Olson, feels that dropping back to the elementary level will prove more beneficial. The tutors will be working indirectly with Mrs. Olson.

"It is just a tremendous opportunity," Mr. Tawney explained. "I strongly emphasize the
