Sextet Turns Out To Be A Swinging Group

Every year at Brevard, new talent is found and this year is no exception. The music ability of six talented boys was discovered last Saturday night at the dance in the student center. The boys, having just organized a band, were well received by the students and are hoping to continue to play at various school functions.

The band is composed of Dave Wendelin from Arlington, Virginia, bass guitar; Ronny Duguid from Jacksonville, Florida, organ; Rusty Crowe from Johnson City, Tennessee, lead guitar; Bob Fisher from Arlington, Virginia, saxophone; Dee Deloach from Columbia South Carolina, guitar; and Dave Foster from Jacksonville, Florida, drums.

All the boys are freshmen except Rusty, and two are music majors — Dee and Bob. All except Dee have played in bands at home, and all do some singing. They play almost every kind of music and are plan-

Duck---Here Comes Icarus!

Icarus, an asteroid one mile in diameter, is one of several hunks of cold matter (possibly iron) that whirl in elongated orbits around the sun. Occasionally, they pass near the earth. If Icarus ever hit us the result would be catastrophic. Next year, the asteroid will come within 4,000,000 miles of earth on June 15 and, just for kicks, students at Massachusetts Institute of Technology have figured a way to save the world should it veer off course and collide with us. For the study, the students assume that Icarus will hit the mid-Atlantic 2000 miles east of Florida at 12:26 GMT on the 19th. Such an impact would splash 1000 cubic miles of water from the sea, make a 15-mile-wide crater in the ocean floor, raise tidal waves 100 feet high that would wipe out New York, Boston and most other port cities on both sides. Energy released would equal 500 billion tons of TNT, and would shake things up 100 times worse than the most violent earthquake ever recorded.

ning on practicing on the week-ends.

The boys do not yet have a set fee but hope to establish one soon. They hope to start playing soon at various school functions and have already planned to play at a private party for the Delphians.

What happens when a group of six talented boys get together and organize their own combo? It could prove to be a success for they have already proved themselves to the students and are looking toward the future with eager anticipation.

Cheerleaders Urge Students' Support On Tues.

Next Tuesday night Brevard will host Gainesville in their first basketball game of the season.

Tuesday afternoon a pep rally will be held during an assembly in Dunham Auditorium. The societies and the cheerleaders will be in charge, and a contest will be held between the Nemos and Delphians and the Clios and Euterps. The newly formed pep band, under the leadership of Charlie Vernon, will also be featured. These boys will be playing at basketball games this year.

The cheerleaders urge the support of the student body at this first game as well as all the games during the coming season. Since there are only ten home games this year, the cheerleaders hope to have buses going to many of the games played away from home, especially to the tournaments held at Forest City in February.

On November 18 Brevard will travel to Georgia to take on Young Harris College.

Come to all the games and YELL!

Dance Held In Student Union On Sat. Night

The Delphians and Nemos "came to the rescue" last Saturday night when they organized a dance which was held in the student union from 8:00 to 12:00. Through the help of Mrs. Walker, Nemo sponsor, the clubs were able to fill up the empty space in Saturday night's calendar and provide an enjoyable evening for the students.

Music was provided by the newly organized band made up of Ronny Duguid, Dave Foster, Bob Fisher, Rusty Crowe, Dee Deloach, and Dave Wendelin. The boys proved to be very successful and were pleased with their reception by the students. Entertainment was provided by Ben Ramseur and a group of cloggers, Jim Swain was emcee.

The Anglo - Cats were very helpful and gave their full cooperation in letting the Nemos and Delphians take over their project of sponsoring the "Zen Den."

HOLLY WILLIAMS pauses from her lunch to "have her beauty struck." This surfer girl is one of the most active students on campus. Why did she leave Hawaii for Brevard? Read below.

Holly's From Hawaii!

How many people on campus do you know that have lived in Hawaii almost all their lives? Not many, but Holly Marie Williams can say that she has. Born in Nanakuli, Hawaii, Holly knew very little of Brevard, but decided to take a chance on coming here and is very glad she did.

Holly, whose home is now Hollywood, California, is a well known figure on campus. Her friendly smile and personality make her a friend to everyone. This year she is doing a fine job as President of the Euterpean Society. She is also a Big Sister, a member of the Women's Athletic Association and was on the honor roll for the first half of the semester this year.

Her favorite course is chemistry, but she enjoys biology and excitedly states that she will take microbiology and marine ecology this Christmas in the Bahamas.

Holly likes working with people, sewing, and studying. When living in Hawaii she was an avid surfer and still enjoys all athletic events.

After graduating this spring, Holly hopes to enter the University of North Carolina at Chapel Hill. She hopes to become a physical therapist, and would like to serve in the Peace Corps for two years.

Holly feels that Brevard is wonderful and says, "Out of all the places I've been, it is here that I've found the warmest and friendliest people."

Brevard College is indeed fortunate to have such an attractive and well-rounded person as Holly Williams on Campus.

ATTENTION: No Double Cuts!

new Student Center next year. So c'mon, ACT YOUR AGE-

campus. Lately here have been numerous complaints about bad student conduct in the Student Center. Free love and football games just do not fit in with the decor in the Center.

Furthermore, there have also been some complaints concerning student (boy - girl) behavior on the campus grounds and also in the Classroom Building. If students persist in this type of "cheap affection," they will be ultimately brought up before the SGA and on the fourth offense will be suspended. This is the action proposed in the event students do not refrain from their present behavior.

AND—if the Student Center is not treated with greater respect in the future (the piano has already been demolished), then the possibility is great that there will be no

MOVIE

"Seven Days in May" starring Burt Lancaster, Kirk Douglas, Fredric March, Ava Gardner. Directed by John Frankenheimer. In the year 1974, an idealistic President of the United States signs an agreement with Russia for nuclear disarmament. The majority of the people oppose this pact. A five star general, who regards the president as a weakling, champions a plot to overthrow the constitutional government. White House and Pentagon settings and background details give an unusually strong sense of authenticity to an absorbing drama.
