

TORNADO WARNING!

By JOHN COLLINS

In this week's adventure our athletic Tornado will be swinging a golf club.

In my opinion, golf has to be one of the most frustrating sports in the world. It began baffling me about two years ago when my dad said "Son, take up golf and stick with it, and you'll make a mint when you're good."

Yeh, I made it all right. The only thing I accomplished was to make up a lot of new words and acquire a very high grade of respect for a sport that tests one in more ways than one. It's a combination of the patience of Job, the coolness of ice, and an uncanny talent for smacking a little ball just right. In other words, it's hard.

Already Coach Joe Bowles and the Tornado golf team have captured the first golf trophy ever in Brevard College's history. This in itself is proof of the team's future potential. So throw together a fine crop of freshmen and a group of returning sophomores and suddenly you have a team hailed as the "best golf team ever" at Brevard.

And if you do dig the sport, make it to the Glen Cannon Country Club when the home matches roll around. You may be surprised!

Tornado Soccer And Cross Country Teams To Be Tested

Brevard College's soccer and cross country teams face crucial tests this week after trouncing their opposition during Homecoming October 11 at the local college.

The cross country squad, coached by Norm Witek, placed its 4-0 record in the line Wednesday afternoon on the home course, as the Tornados faced an invading team from Milligan (Tenn.) College. Freshman Reggie McAfee set a Brevard course record of 21:20 for the four-mile course in Saturday's 15-49 trouncing of Wingate College. In that meet, six Tornado thinclads crossed the finish line before the first Wingate runner was able to finish. Coach Witek's charges will compete in the Calloway Gardens (Ga.) invitational meet Saturday, October 18.

Fresh from a 7-0 homecoming victory over Montreat-Anderson College, the soccer team will face a revenge-minded Clemson "B" squad Friday afternoon in Clemson. The Tornados shocked the Tigers in the opening game of the season September 20 by a score of 5-1 in a match played on the Sherrill Athletic Field. Saturday's shutout over Montreat-Anderson gave the soccer team a 4-2 record. Sophomore Mike Michner emerged from the contest with five goals and 13 total points for the young man, making him the greatest scorer in Brevard's history and a prime candidate for National Junior College Athletic Association All-American honors.

Jordan Leads College Golfers In First Etowah Tournament

Brevard College's Tiger Jordan took individual medalist honors in Division II, while the Brevard golf team captured runner-up honors in the first annual Etowah Collegiate Invitational Golf Tournament held October 11-12 at the Etowah Valley Golf Club.

Jordan's 36-hole total of 149 was five strokes better than his nearest competition, as the Tornado freshman won his second tournament in as many weeks. He had teams with Dr. Walter Clayton October 4-5 to win the championship flight of the Glen Cannon four-ball affair.

Wingate College won team honors in Division II, for junior colleges, with a 650 total. Brevard finished a close second at 654, while Anderson College was third with 657. All three teams had taken over sole possession of first place during the final nine holes of competition, the outcome not being decided until the last threesome had holed out on the 18th green.

Wofford College took divisional honors in Division I for four-year colleges and universities, with a 610 total, followed by Clemson University (615), Furman University (620) and the University of North Carolina at Asheville (684).

Roadrunners Win Saturday, 15-49

Overpowering Wingate in the Homecoming cross-country meet, the Roadrunners of Brevard took the first six places in the track meet. Wingate College was the only team to show up for the meet on Brevard home course out of five colleges invited. The score was 15-49, with the lowest score winning.

It was a humid afternoon, with very little wind. The air was dry which made the breathing a little rough on the thinclads.

Regional MacAfee, a 4:08 miler from Cincinnati, Ohio, romped home with a 21:20 time, for the first time that the course has been run. Following MacAfee was Willie Davidson, and Lennox Stewart placed third. Filling the fourth, fifth and sixth positions were Larry Lanier, Pete Jensen and Roland Yearwood respectively. Freshman Jim Husbands took the eighth position.

Clemson's Joe Vignati, with a 149 total, also won individual honors.

Coaches from the visiting schools were lavish in their praise of the tournament, which was hosted jointly by Etowah Valley Golf Club and Brevard College, noting that the hospitality afforded them and their

teams by Etowah officials was outstanding, and that the 7,023-yard Etowah lay-out provided a true test of championship golf.

Plans have been made to expand the tournament for 1970, making it into one of the outstanding fall collegiate golf tournaments in the nation.

University Of Texas Fights Apathy War

(ACP) — The Daily Texan, University of Texas, Austin. One of the major focuses of the Students' Association, the student governing body at the University of Texas at Austin, in recent years has been the war against apathy.

When asked what he tried to accomplish in his campaign, newly-elected Association president Joe Krier said in March he "attempted to increase student awareness and involvement on this campus."

Even the Student Assembly itself was accused of sluggishness last year when it was slow

in pushing for issues introduced by President Restam Kavausi.

And the House of Delegates, the major organ of student opinion, was forced several times last spring to adjourn early because it lacked a quorum.

While the student government is trying to make students aware of the issues and problems of the campus, many students are totally ignorant of the workings and composition of the government itself.

Yet this is the mechanism through which student opinion is vocalized and programs implemented.

Grass Is Main Topic In Student Rat Session

(ACP) — The Battalion, Texas A & M University. Grass was the topic for a rap session between a group of young people calling themselves the "Beautiful group of Austin, Texas, legislators" which included one Senator.

The spokesmen for the group of students from the University of Texas set up a table, chairs, and a sound system, and proceeded to ask questions concerning the stringent marijuana laws, in particular seeking the justification for making the penalties for possession of marijuana "the same as those as-

sessed in some murder and rape cases."

The representatives praised the group for "demonstrating their sincerity" by wearing shirts and shoes and "approaching the Legislature in an orderly fashion," but announced themselves in general to be "unalterably opposed" to the use of marijuana and drugs.

One representative, when asked about the medical justification for the laws, admitted that he "did not have all the information on the subject, but that marijuana should not be legalized just because cigarettes and alcohol are legal," while another said she thought the youths were "incredibly preoccupied with marijuana laws" and should direct their energies to other social problems also.

Tornados Down Montreat By 7-0

Led by the hot shooting of sophomore Mike Michner, the Brevard College Tornados shut out the Montreat-Anderson soccer team by 7-0 Saturday in the Homecoming game.

Other scorers from Brevard were John Collins and Brackie Brenizer, each scoring one goal.

Brevard takes on the Clemson B team today at Clemson's home field. Brevard beat Clemson in an earlier contest this year.
