Trustees On Campus For Fall Semester Meetings

The Brevard College Board of Trustees met for the fall semester Thursday and Friday, October 1 and 2, 1970. In making the announcement, President Davis indicated that the chairman of the board, Mr. Allen H. Sims of Gastonia, will be presiding.

The trustees are the policy-making body of Brevard College and are composed of some 57 business, professional, and church leaders from throughout the state. The group has guided the growth and development of Brevard College in building one of the finest

junior colleges in the nation, both academically and in terms of facilities.

Meetings begin with dinner at 7:00 p.m., Thursday in Myers Dining Hall. This is to be followed with entertainment by the Brevard College Music Department under the direction of Miss Joan Moser and Mrs. Carolyn Cox.

On Friday, committee meetings will be held from 9 a.m., followed by a General Board meeting from 11 a.m. to 1 p.m. The General Board meeting will feature a report by President Davis, committee reports, and a brief address by Dr. D. D. Holt, former President of Scarritt College.

President Davis stated: "We are delighted to have these leaders and supporters of our college back on the campus once again. The future of Brevard College looks bright because of the dedication and the loyal work of these men and women who gather on our campus at this time."

Rotary Foundation Scholarships Are Available To BC Students

Rotary Foundation awards for international understanding furnish opportunity for study abroad to outstanding young men and women who are interested in world affairs and who can fulfill the dual role of student and ambassador of goodwill. Qualified students and technicians have an opportunity to contribute to better understanding between their home and host countries while pursuing their own career interests. Rotary Foundation awards are given for Rotary Foundation graduate fellowships, undergraduate scholarships, and technical training.

An award covers round trip transportation, educational, living, and miscellaneous related expenses for one academic year, plus in certain cases a period of intense language training in the study country prior to the commencement to the regular academic year. Awards are made for study in any field and are tenable in nearly 150 countries in which there are Rotary Clubs. A candidate for a Rotary Foundation educational award must not be a Rotarian or a relative or dependent of a Rotarian. He must be both an out-

standing student or technician and a potential ambassador of goodwill of high quality. He must demonstrate personal qualities of leadership, initiative, and enthusiasm, affability, maturity, and seriousness of purpose.

Specific requirements for each award are as follows:

GRADUATE FELLOWSHIP: (a) Bachelor's degree or equivalent. (b) age as of 1 July 1972 between 20 and 28 years, (c) must be single

UNDERGRADUATE SCHOLARSHIPS: Applicant must have completed a minimum of two years university work or equivalent by 1 July 1972, and be between the ages of 18 and 24 years and single.

TECHNICAL TRAINING: Applicant must be a high school graduate or the equivalent, with two years experience in the technical field, between the ages of 21 and 35 years, and may be single or married.

Application must be made through a Rotary Club not later than 15 March 1971. For further information, please contact the nearest Rotary Club, or Dr. J. P. Chapman, Jr., 520 Biltmore Avenue, Asheville, North Carolina, 28801.

Former Brevard Student And Clarion Editor Chosen For Military News Team Covering Apollo 14 Liftoff

A United States Air Force Bulletin, the Airman magazine, the Military Journalist magazine and the Air Training Command Press Service.

Airman First Class R. Wayne Norton, previously assigned to the Air Training Command as assistant editor of the Lackland AFB newspaper, was recently assigned to Milford Hall Medical Center as airman-in-charge of the hospital complex's information office.

He will accompany newsmen and military doctors to the launch site and will be involved in establishing a military information center at Cape Kennedy.

Airman Morton was news editor of the Anderson (S.C.) News Leader prior to his entering the Air Force. While associated with the newspaper, he was recipient of Sigma Delta Chi Professional Journalism Fraternity's honor award.

A 1967 honor graduate of Westminster High School and a 1969 honor graduate of Brevard College, he has been published nationally and has received acclaim from Air Force Times, Air Force News Service, the Aerospace Medical

While assistant editor of the Lackland newspaper, with a circulation of 30,000, the paper was cited as one of the top papers in the Air Force by the Secretary of the Air Force Office of Information.

In his new assignment, Airman Morton is second in command of the information office at the Medical Center, the largest medical complex in the Air Force and one of the largest in the military. It will be his job to act as a public information official for the center, maintaining press relations with the military and civilian community.

Airman Morton is currently involved in preparing a feature series on the Medical Center and its connection with the Apollo mission for NBC's "Today" program.

He and his wife, the former Donna Cox of Seneca, South Carolina, and young daughter reside in San Antonio. He is pursuing studies in mass communication at Trinity University in San Antonio and by correspondence with the University of Missouri.

Clarion Receives 1st Class Rating For Spring, 1970

The Clarion has received a first class rating for the Spring, 1970 edition, announces advisor Mrs. Ena K. Sigmon. Judged each semester by the Associated Collegiate Press, the Clarion is placed in the division for two-year schools with weekly publications. The divisions for grading are coverage and Content, Writing and Editing, Editorial Leadership, Physical Appearance, and Photography.

Possible ratings range from

All-American and First Class on down to Third Class rating. The Clarion was honored last year by having the fall, 1969 semester's version awarded an All-American rating, the highest possible. To receive an All-American rating, the publication must receive a "mark of distinction" in at least four of the five major classifications. The spring 1970 Clarion received three marks of distinction; in coverage and content, writing and editing, and physical appearance.

The score received indicated how, in the judges opinion, the paper compares to others in this group in that facet of its work. The standards are not so much set by the ACP as they are by the paper themselves. As the best of publications reach new levels of achievement, those things which constitute an All-American paper also change correspondingly and with it the other honor ratings.

Miss Nicholson Returns To The Chemistry Department

The Chemistry Department is pleased to announce the return of Miss Bobbie Nicholson. After having surgery at a hospital in Hendersonville, Miss Nicholson states that she is very happy to be "healthy and back again." Her operation was scheduled August 10. She gave herself a rest in order to get back to "the kids" at this time.

Miss Nicholson explains that there will be a new approach

in the instruction of chemistry. In team teaching with Dr. German, they will bring in more modern material. The material relates nuclear power with environmental studies. Thermal pollution is also discussed.

The Nicholson-German team is trying for more individual instruction and fulfilling many students' needs. Larger classes are being held with about fifty students per class.

The increasing level of excellence provides a challenge for the paper with aspirations for a high rating, and the judging adds a valuable, extra incentive into college newspaper work.
