American Hero

The GOP, a party which prides itself on helping out the working class of America truly has given something back to a small section... the "working girls." This week's American Heroes, the Republican National Committee, apparently agreed to reimburse the director of a RNC group called the "Young Eagles" for nearly 2,000 dollars which they reinvested into their community. And by reinvested in their community, we mean spent on strippers at a high class Los Angeles Bondage club. Apparently, the original request for reimbursement from the RNC was for "meals" at a location called Voyeur West Hollywood. Voyeur is described as a "world of risqué sexuality and eroticism." We at The Clarion are curious as to what type of "meals" could cost \$2,000 at a club such as that? No word yet as to whether Eliot Spitzer has switched parties and is the corrupting influence in this scandal. So, for reinvesting a little money back into the community and for helping out some of the "working girls," we at The Clarion would like to salute the RNC.
