Gays Counseled In Draft Resistance

In Los Angeles, a Gay/Lesbian Draft Counseling and Resistance Network has been organized to provide draft counseling for gays.

Other goals of the organization include training gay draft counselors, non-violently resisting the Selective Service System, and networking with other gay men and lesbians around the country involved in draft counseling and resistance activities.

Lisa DeSoto, an organizer, said, "In the coming months we will need to produce new literature, train more counselors. . . and answer the questions of desperate 18-year-olds whose futures are being determined without their consent."
