FACULTY ADVISERS

- Mr. Taff Miss Reyatt

By now most of us have broken all our New Year's resolutions, but there is still time to make more and better ones. The new resolutions should be called, not New Year's Resolutions but, New Semester's Resolutions. They should concern our Academic work in specific and our College life in general.

We should resolve:

To do better work in the coming semester. If we try we shall do better, for our work is only as good as the effort we make.

To spend at least three hours a night in study. It really isn't so bad after all.

To put study before pleasure. Picture shows, books, downtown excursions-- all pleasures should wait upon our studies.

To avoid cutting classes unnecessarily or being needlessly late. We may miss an important link in the subject.

Few, but not simple. Carrying out these resolutions will require will-power and determination. Yet we'll have the satisfaction of knowing that our work has been well done. Anything worth doing at all is worth doing well.

SECRET JOURNAL OF LOUISBURG COLLEGE

Two years at Louisburg have been the best I can ever hope for. The friendly, informal atmosphere around the college has enabled me to make some of the best friends-- among both students and faculty-- that one could desire.

Louisburg has meant the opening up of a new life for me-- the possible by the gold-leaf plan. It has aided me not only intellectually, but culturally in preparing myself for life.

The Christian, home-life atmosphere of Louisburg has meant two years of real happiness to me. The faculty and student body have cooperated in "making the best better."

CHILD, ANN'S  
MONEY MATTS  
MATH BOX

Dear Miss Mann:  
I have the annoying habit of eating onions. I cannot make her stop. Every time I go out, I come back so red that people think I am drunk!  
The question is, "What'll I do?"  
SIGNED: ...

Dear Child:  
This is one of life's complex problems--one with no definite solution. However, in my ... BOOK, I find several solutions. First, you may fight fire with fire by simply eating the odorous food yourself; second, you may use a ... but probably the most practical solution is to take a cold shower at the college infirmary.
