Sherron Is Vice-President

Linda Royster was elected vice-president of the freshman class at the beginning of the fall semester, but after her withdrawal from school this office was left vacant and a replacement was to be found.

The Elections Committee set up a re-election, which was held at the same time the Homecoming Queen was selected. Candidates for the office were Robert Hensley, Stan Lewter, Robbie Sherron, and Sandy Murphy. Robbie Sherron was elected to the office.

She states, "Before being elected vice-president of my

freshman class, I knew it would be an important responsibility. Now that I've been selected for the position, I intend to fulfill that responsibility. My job is to assist the president in any project or idea that he is working on. Being a part of the team is an honor and I will do my best to do a good job for my school and class."

Robbie is well-known around campus. She is involved in various activities such as singing in the Glee Club and providing entertainment for coffeehouses. She was also a Homecoming representative.

Sugarcreek will perform on campus during Winter Weekend, Feb. 11-13.

Sugarcreek Booked For Winter Weekend

It is nearly impossible to please everyone, but a Charlotte, N.C. based band, Sugarcreek, is accomplishing this feat. They are capable of "turning on" virtually anyone. Their gimmick---good music and a good show. From being just another group, Sugarcreek has risen to being one of the best dance and show groups.

Sugarcreek is indeed a highly competent, seven-piece vocal and rock attraction, too diversified to adhere to the limitations of a multitude of artists who jump on the bandwagon for just a few months. The roots of Sugarcreek date back ten years, which is almost unheard of in a regional rock combo. They have traveled thousands upon thousands of miles---playing for hundreds of college dances, fraternity and sorority parties, high school dances, deb parties, club engagements, etc. These performers, twenty to twenty-six years of age, have been performing up, down, and across the Southeast for so many years, that one automatically expects musical professionalism. They don't disappoint! Their success can be

attributed to team spirit and determination to do the best job possible.

An ability to handle any type of musical taste with authority and flare is Sugarcreek. They are specialists with all the hits from the late fifties to the present, including Soul, Top 40, Rock, Disco, and slow dance music. Even the ever-popular Carolina Beach sound is part of their repertoire. Being able to adapt to any situation has helped Sugarcreek become one of the South's most popular and sought-after music and show attractions.

This is Sugarcreek on paper; Louisburg students have the chance to see and hear them double on eleven or more instruments during Winter Weekend, Feb. 11-13. All seven men share lead and harmony vocal parts, plus they are all accomplished musicians. Rarely will one find a band with seven lead vocalists---not to mention their outstanding choreography and showmanship.

Oak Prepares For Publication

The Oak staff has been working "very diligently" on the yearbook, according to Sara Purser, editor. The group completed a total of 34 pages in the first week of work. Photographs for the yearbook are expected in by March 7. The staff anticipates a spring publication, somewhere around the first of May. As of yet, no theme has been selected.

Louisburg College was represented in the inaugural parade. See related picture, page 3.

College Represented In Parade

Franklin County, the city of Louisburg, and Louisburg College were represented by a float in the inaugural parade held for Governor Jim Hunt on January 9.

Three college students rode on the float. They are Phama Mullen, Betty Norris, and Millette Perry. They were accompanied by eight other local students. Dean Eller

also marched with the 440th Army Band.

One should not feel guilty if he failed to see the parade on television. Even those who watched the parade from start to finish did not see the float because it passed by during a commercial and no video-tape replay was shown.

SGA Plans Two Eventful Weekends

Phama Mullen

The SGA has been working hard planning events for this semester. The Entertainment Committee has worked out two big weekends, one during the winter and one during the spring. They are also planning a mid-winter weekend on March 18-20, but plans are not yet

complete. On March 20, Alfred Hitchcock's thriller "Psycho" will be shown.

The bands for the winter and spring weekends have already been booked. Sugarcreek will appear during February and the Spontanes are coming for Spring Weekend. These bands are two of the three biggest in the South.

"Prime Cut," a movie starring Gene Hackman and Lee Marvin, will bring Winter Weekend to a close on Sunday, February 13.

Plans for Spring Weekend are still being discussed. The Entertainment Committee is thinking of getting Sutter's Gold Street Band to return due to popular demand.
