THE STUDENT VOICE OF LOUISBURG COLLEGE

## Louisburg scores big

*Soccer and tennis teams announced, coaches tapped*

Louisburg College sports fans will enjoy two additions to Hurricane scoreboards in the fall of '95: men's/women's soccer and men's/women's tennis. The announcement was made last month and the search for players and coaches has begun.

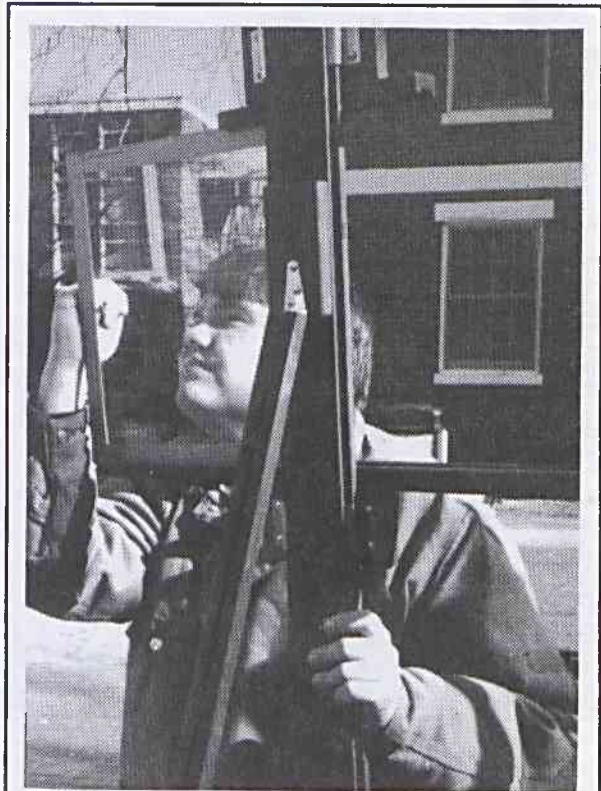

A group of faculty and students have already selected Andrea Lane to coach the tennis teams. She is a graduate of Transylvania College in Lexington, Kentucky where she excelled in post-season play during each of her four seasons.

Lane, who teaches at Meredith College part-time, has plans to begin recruiting immediately. She is looking at high-school teams in North Carolina and Virginia, and is

interested in walk-on talent at Louisburg.

She foresees a small team of ranked student athletes and is interested in putting together matches in the fall and spring. She is looking forward to the fall when she will be working full time and directing her attention to developing a winning Louisburg tennis program.

The search for the new soccer coaches continue. John Conyers is now taking names of those interested in becoming part of next year's teams. The deadline for sign up is April 6.

Second-year Hillman resident Mike McCrory etches on glass in front of Main. As the warmer weather approaches, Will Hinton's classes can be seen all over campus.
