Suttlemyre Settles In

by Matthew Yehiel

Taking the place of Dr. Willard this semester is Greer Suttlemyre. Suttlemyre graduated from Oxford (yes, that Oxford), and is glad to be here at Louisburg, even if it is only for one semester.

Suttlemyre worked 10 years for the National Register of Historical Places before going to Oxford. After his return from England, he taught for two years at NC State. He has taught the last three years at the Community College near his home of Table Rock, NC.

When Suttlemyre worked for

the National Register of Historic Places, he came to Louisburg College to consider Person Place and the Old Academy Building for entry into the Register. He enjoyed Louisburg then, in 1969, and still enjoys the town today. At the end of his first week at Louisburg, Suttlemyre had this to say of the students and faculty: "I like the students, I like everything about it..."

He was also impressed with the number of faculty members that came to welcome him to Louisburg. He stated that right now he couldn't be happier.
