Spring Week Arrives At Gaston

In years past, Spring Week has grown into what some consider a super celebration of ending a long year in the books, while others consider it a headless monster which devours student funds and study periods. Keeping up with tradition, and trying to top last years successful week, the 1981-82 SGA has made plans which will ensure lots of fun and excitement for almost everyone involved. The Week of Whoopy will include pleasures for the ears, eyes and tummy, and will climax with two, count'em, two nights of outdoor concerts on the athletic field. Few people are aware of the tremendous profits which were reaped during last years Spring Week.

May 3, 1982 —

May 7, 1982
