

PILOT SALUTES

FAIN COMBS

Because of her lovely smile and splendid personality Fain Combs was chosen for this month's Pilot Salute. A sophomore liberal arts student from Shelby, Fain is a leader in campus activities. Thrown to many people Fain was the "mastermind" behind the Homecoming presentations, and we might add, very well done. That isn't the only thing Fain has done — she has been a member of the Social Standards Committees for two years. She helps plan social events such as tea, open house and etc., and then pitches in to make loads of sandwiches and arrange cookies on a tray without a word.

Fain, like most students has favorites in everything. Some of hers are: record—"I'll Never Stop Loving You," (of course to Al); Subjects—Psychology, Phys. Ed.; Food—Hamburgers. She has no special hobby but likes to play golf.

Fain maintains a scholastic average meriting her membership in the Marshall Club as an active marshal. This is commendable, considering her mind is at Chapel Hill all the time (or at least most of it). Her beautiful diamond signifies that next summer she will become Mrs. Al Eskridge and continue her education at U. N. C.

Hats off to a sweet, likable and charming young lady who deserves the Pilot Salute.

CHARLES HUNSINGER

It is time once again for us to say "Hats off" to one of Gardner-Webb's finest sophomores boys. This month we salute Charles Hunsinger.

Charles, a resident of Charlotte, has made quite a showing at Gardner-Webb. His mind, containing much knowledge, has earned him straight A's. As a result of his straight A's, Charles is a member of the Marshall Club. Because of his leadership, he was elected by the other marshalls as chief marshal.

Charles, who is seen behind the counter in the cafeteria as supervisor each day, is active in several other phases of activities on the campus. Among his varied activities are band, and membership in the Language Club, which is the society for honor foreign language students.

After he graduates from Gardner-Webb, Charles plans to attend either Wake Forest or U. N. C. and continue his studies as a medical student.

To a boy whom everyone likes, we say "We are glad to salute you."

the time they stung me all over the head?

I. Q. is I wonder what all the commotion is at the Dixon's. Oh, now I remember it is the first of the month and everyone is paying his water bill.

Ability is always measured as—What is all that racket over at the Moleys? It sounds as if the house is coming apart. Oh, I see now it is only Mr. Moseley playing with Arthur on their front lawn.

Homeostasis is the tendency of the body—. There goes Mr. Roberts flying around the circle in his car with his three boys in the back seat. Mr.

Roberts must have a "Hot" story. There is a second type of frustration arising—. Mrs. Washburn is working in her garden. I believe I'll go ask her why their light was on all one last night. No it won't go because Dr. Washburn was probably just seeing about another flu case.

The types of therapy are direct counseling and—. There goes Rachel out in her daddy's fine car. I wonder where she is going. Wish I could run around all the time instead of studying.

Double vision is caused—. I wish I knew what the joke is that Mr. Godwin is laughing at. I guess it is one of his wife heard at school today. Seven factors the influence—. What an awful noise! It is just Philip practicing his trombone on his front porch.

Ivan Paulov discovered—. There goes Coach Harris to the ball game. I want to go so badly but I have to study psychology. Here I've studied all afternoon and not learned a thing.

Dear Santa,

We've been good scholars all this year, and Christmas, we'll expect you here with boot for all and some to spare. Get with it Nick! Don't be a cube.

I've made a list of things we need. If you're prepared, let us proceed.

For all the boys in Decker Hall, a Col. machine that's on the ball. The old red box we now hold dear contributes naught but atmosphere.

The girl behind my chapel row would like a string of beads. I know. Her others lasted quite a while. Each day she rolled one down the aisle.

For Burley's fan club, widely known, a bulletin board that's all their own.

A road map and some travel fares for the poor man's Harry James upstairs.

Young and old alike would praise a ferryboat for rainy days, especially if it sails indoors over Hamrick Buildings' flooded floors.

A calendar is just the gift for the library's morning staff, apparently they've not been told their newspapers all are three days old.

Master Dixon's engineers, with plectrums running out their ears, could use an electronic brain, if one is made to stand such strain.

Master Moseley could go hard if a Chevrolet were in his yard.

Elaine Preida Stanley for this chiller, "Presley records for Miss Miller."

A dictionary would be a prize for Mister Dedmond. Otherwise, he'll go through life and never get the fact that A is in the alphabet.

And please bring dictionaries too to Mister Barnett's history room. He uses words so little known that we suspect they are his own.

There are some friends we've overlooked, but we trust their names are in your book. And fear not, Santa, that I pester. I won't be here next semester.

Love, W. P.
