## Calling All Boys Be On The Lookout For Predatory Females

By Ann Holden

BEWARE OF April 2, the life you save may be your own. On April 2 the girls have a day to pick and choose over the male population of G. W. There is much jubilation in Stroupe, but there is no joy in Decker for the girls will be out chasing, beating, grabbing, and following the men of G. W. This should be quite a shock for some of the boys because some of them don't seem to notice there are such things as girls. Imagine their surprise when they are pursued by a growing co-ed who has wanted the chance to get her fangs into them since last fall. Happy hunting, girls.

For the past several weeks the girls have been looking over the boys they will try to capture on their one day out. Rumor has it that in case some of the mighty muscle men should try to sneak out and spoil a poor girl's chances this one day in a year, it will be a closed week-end for the boys. How does it feel to have a taste of the girls' rules for a change?

The girls will have to catch the fellow of their choice. The girls will be lined up on one side of the ball field with the boys on the other. The boys will have exactly one-minute to escape the herd; they can climb trees or use any other means of escape.

Mrs. Haynes has had no trouble getting the girls to run their laps in P. E. they are getting in shape and filling their tank shoes; while the boys of HAPY and Decker are getting into shape, running wind sprints, and praying for the best.

Happy hunting, girls! And boys, give the girls a break; they aren't as young as they used to be. Besides, college life takes a lot out of BEWARE OF APRIL 2!

## Very Early From Page One

Lord, and that he had spoken these things unto her.

Then the eleven disciples went away into Galilee, into a mountain where Jesus had appointed them.

And Jesus came and spake unto them, saying, All power is given unto me in heaven and in earth.

Go ye therefore, and teach all nations, baptizing them in the name of the Father, and of the Son, and of the Holy Ghost:

Teaching them to observe all things whatsoever I have commanded you; and, lo, I am with you always, even unto the end of the world. Amen.

Hands get in your eyes

## Publishing A Newspaper From Page One

But after the articles and pictures have been placed, then most of the work is done.

After the layouts have been completed, then the paper is checked once more before it is sent to the printer. And then the staff sit back to wait for the publication of the issue.

A newspaper is only as good as the amount of work and time spent in getting it ready for the public. A professor once said, "You can't get nothing for nothing, but nothing," this holds true especially in the newspaper work. A paper is only good when the contents of it are up to acceptable standards.

## Around The World in Fashions From Page Two

make the "Cotton Curtain" refusing to be outdone by Russia, and to be the largest nudist colony in the world.

Cuban women have come up with a darling little model this year. It has eight toy soldiers lined up in firing squad. Guaranteed to kill anyone making unbecoming comments.

Switzerland has cut the women's dresses eight inches shorter, but fear not, those of you with knobby knees, bloomers will be eight inches longer.

All in all, Eloise says neck lines will be lower and shirts will be shorter and everything will come to a happy medium.

By the way who is Eloise? Eloise-Eloise is your mother!!
