

## Student Government Association Update

Do you know what your elected representatives are doing? The SGA announces that the Senate Meetings are open to the student body and you are urged to come and ask questions if so desired. The next Senate meeting is Feb. 13 in the Senate Room of the CID Building. By attending these meetings, you the student body, will have the opportunity to participate and be informed as well.

For your convenience, the Student Government Association has supplied the following information. In the SGA-Student Recreation Account No. 568, there is approximately \$1,700 and in The Student Centerboard Account No. 564, there is approximately \$12,799.88. Even though these balances are now showing, most of the money is already accounted for, such as the purchasing of a Light and Sound System for the Doghouse, located in the bottom of the CID. Three plans are tentatively to hold a disco every weekend unless conflicting circumstances occur.

Many of your SGA Representatives are now serving on important committees. These students will serve for one year, beginning the first of January thru the last of December '78. These committees and students are as follows:

- Board of Trustees
  - Development Committee—David Underhill
  - Tone and Character Committee—Barry Groene
  - Finance Committee—Cindy Bridges
  - Curriculum Committee—Rachel Schlofer
- Board of Advisors—Gary Richardson, Deborah Landford
- Title 504 Committee (A Study of Regulations for Handicaps)—Richard Brunson, Rachel Albus

Spring Jubilee, one of our traditions, held annually, is now under development. A committee has been chosen and they are making plans. These students are as follows: Cathy Holt (Chairperson), Gary Richardson (Ex-officer), John Linderman, Rusty Chappell, Sue Holt and Chan Masters.

## The Colloquium

Dr. Robert E. Morris spoke at the first Math-Physics Colloquium, Thursday, January 19. The topic of his talk was the "Use of Mathematics in Modern Physics."

Dr. Morris discussed the early development of quantum mechanics from a study of electromagnetic radiation from a blackbody and the radiation from the hydrogen atom. The main point of the talk was that being able to write a mathematical law to describe the radiation led to a new physical description of the two systems.

The purpose of the Mathematics and Physics Colloquium is to encourage faculty members to pursue academic interests, as well as to stimulate area high school teachers and students to broaden their knowledge of mathematics.

## REVIVAL

During the week of February 6-10, the Spring Student-led Revival is being held. There will be five evening services and two morning services. A Creative Worship Service will be held in the Dover Chapel; on Feb. 5 to kick off the week of revival; service starts at 10:15 p.m. Monday through Thursday there will be an evening service at 6:00 in the Hamrick Auditorium.

Speakers will be: Monday—Jim Kilgore, Tuesday—Bob Conrierf, Wednesday—Kelvin Mosely, followed by a Fellowship for All Students, and Thursday—Robin Mikalunas. Tuesday and Thursday morning services will be at 9:15 in Bost Gymnasium. The speakers are Tuesday—Charlotte Fletcher and Thursday—Tom Query. Tuesday morning Pat Terry will be in Chapel and will have a concert that night.

## Department of Math Sciences

The Mathematics and Physics Department will become the Department of Mathematical Sciences next fall. This is not just a change in the name of the department, but also a change in course offerings.

We will be cooperating with the Business Department and double listing courses in the use of the computer. A mathematics major will now be able to get a B.S. degree in mathematics with a computer science concentration. This will give the student a wider range of job opportunities as well as a better preparation for graduate school in the area of computer science. For details concerning this new program, contact Dr. Paul Jolley, chairman.

## GWC Evening Classes

Gardner-Webb College is offering a wide range in evening classes for the spring semester. The Evening College is designed for students who cannot attend classes during regular morning or afternoon times and is to assist those who seek a degree in college or those who wish to take courses arising from personal interest.

Registration was Thursday, January 12 beginning at 6 p.m. The cost is \$40 per credit hour. Most courses are three credit hours.

The course offerings are as follows: Art 207 (art appreciation), Monday, 6 to 9 p.m.; Music 246 (beginning guitar), Monday 6:30-7:30; Biology 307 (public health laboratory techniques), Tuesday 6-9 p.m.; Data Processing 202a (basic computer systems principles); Sociology 316 (popular culture), Tuesday 6-9 p.m.;

Business Administration 470 (CPA practice review), Wednesday, 6-9 p.m.; Math 112 (college algebra), Wednesday, 6-9 p.m.; and Political Science 321 (international relations and world politics), Wednesday, 6-9 p.m.; History 102 (survey of modern western civilization since 1815), Thursday, 6-9 p.m. and Music 186 and 386 (orchestra), 7-9 p.m.

The evening college is open to all interested people.

A new series of seminars about how to plan for retirement begins January 17 and continues each Tuesday evening from 7 to 9 p.m. for ten weeks. Gardner-Webb faculty and social security personnel from Shelby will conduct the course, which offers two continuing education credits (CUE's).

The seminars are on topics such as: questions and answers about the social security programs; pen-

sions; health maintenance and health insurance; taxes, savings and investments; housing and budgeting; estate planning and wills; ownership and disposal of real estate; inheritance laws and rights of the spouse; leisure time and future planning.

The cost of the seminars are \$10 for all 10. Information may be obtained by calling or writing the Director of Continuing Education (Dr. Larry Sale), Box 883, Boiling Springs, N.C. 28017, telephone 434-2361, extension 254.

## Seminars On Survival

The Alumni Association is sponsoring a series of seminars designed to assist prospective graduates to successfully face upcoming challenges.

All seminars will be held in Room 113, Charles I. Dover Student Center.

**HOW TO GET A JOB AND HOW TO KEEP IT**

Thursday, March 2 — 6:00 P.M.

Seminar Leader:

Mr. Les Farfour, Attorney  
Yelton, Farfour and McCartney, Shelby, N.C.

## REFLECTIONS

Reflections is the Gardner-Webb literary magazine. It consists of poetry and short stories written by students, faculty members, and people of the community. The purpose of Reflections is to promote interest in creative writing.

The editor of Reflections is David Putnam, and the co-advisors are Dr. Joyce Brown and Mr. Blankenship. Student workers are needed and especially students who are interested in artwork.

If you enjoy writing poetry or short stories, write for Reflections! And submit them to Mr. Blankenship or Dr. Brown.

The magazine will be published in April. Deadline for submissions to Reflections is February 20.

## Letter To The Editor

January 24, 1978

Dear Editor,

I actually enjoyed chapel last week! Dr. Elizabeth Koozt was a blessing to listen to for offering a message of optimism and good news. (A much needed change from my "pre-graduation blues" . . . you know . . . Will I go to grad school? . . . Will I find a job? . . . Will I survive?!!)

One thought of hers stands out in particular concerning the job market. "People are always making a place for a person with guts, for one with self-confidence and for people willing to start at the bottom and work up. A person so willing has goals, and people respect and want that." Seniors, there is still hope!

The only negative thing I heard about the program were "It should have been required for women only" or "She was just a woman's libber." I disagree. She was a people's libber. She spoke not only of women's lib, but of age, racial, and sex (both sexes) discrimination. She also brought up the questions of career changes, environmental influence, energy supply and demand, and mandatory retirement—questions that eventually will affect us all at some point in our lives.

I firmly believe that anyone, any age, sex, or color could have received a message from her speech that one could identify with had they heard this sincere, dynamic woman speak. Paudits to Dr. Koozt for a job well done!

Respectfully submitted,  
Dana Leigh Dillon
