Faculty to Appear in Girltoy Magazine

During a news conference, March 30, Drs. Jeff Elwell and David DeGraaf announced plans to "bare it all" in the May issue of Girltoy magazine. The controversial announcement has raised eyebrows across the Gardner-Webb College campus and throughout the surrounding community.

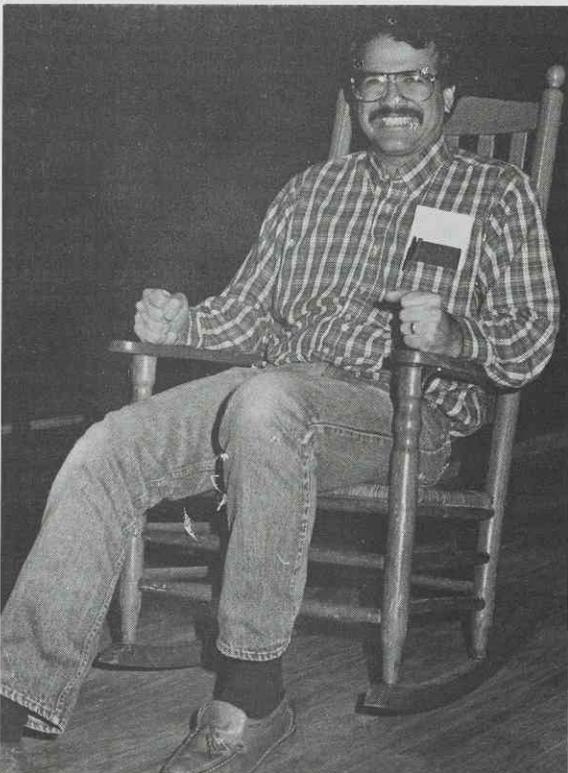

Photos of Elwell and DeGraaf will be used in a special graduation edition of Girltoy. Short biographies of the professors will be included in the issue with Elwell reputedly saying, "Someday I'll be a famous playwright," and DeGraaf saying, "Rock collecting is so keen."

Of his plans, Dr. Elwell told the Pilot, "I think the exposure will be good for my career." DeGraaf went on to say, "Geology is such a sedentary field, I want people to see... me as more than a professor."

Despite administration disapproval, the GW student body strongly supports the decision of the two professors. Says student Jane Smith, "I think its good publicity for the college." Bookstore manager, Freida Collins, has ordered an extra 5,000 copies of the May edition of Girltoy in anticipation of the great demand for the magazine.

Elwell and DeGraaf have agreed to several autographing sessions to be held in the bookstore exam week.

Commerative issues will also be sold during graduation exercises, May 16.

Evening meal calamity kills 4.

Star Named Dean

Recently, the College's Search Committee announced its selection of Dr. Frank Bonner to replace Dr. John Drayer, as Vice-President for Academic Affairs. Bonner, a native of Cincinnati, Ohio, is best remembered for his performance as Herb Tarlik in the long-running sitcom "WKRP in Cincinnati". Bonner's expertise in administration was gained by previous work in advertising and the operation of a radio station.

The new Dean is looking forward to working at Gardner-Webb and in its small town atmosphere. "I am so glad to be getting away from big-city life, a harrowing re-run schedule and especially Les Nessman," says Bonner. "When I get tired of the office, I can always go over to

Gardner-Webb Goes Heavy Metal

In an attempt to appease a hostile student body, Melvin Lutz announced Tuesday that heavy metal metal legend Ozzy Osbourne will play for the Spring Jubilee. Osbourne famous for his violent acts of violence, has chosen to have Iron Maiden as his warm-up band.

Although Ozzy was forced to sign a rider that prohibited killing on stage, he personally told this reporter that, "just 'cause I can't kill, doesn't mean that I won't hurt

somethings!" When asked if he would change his lyrics, Oz replied, "H#\$% no! You gotta dance with the girl that brought ya to the dance." SCB chairman Kave Deim said, "You can call me Kave. This is definitely the best thing that has happened to this place in a long time. I only wish that we could have gotten Unlimited Defense Spending."

Unfortunately, however; the signing of Osbourne has brought one bad thing along with it- each ticket will cost \$125.

WGWG and I'm sure I'll feel right at home."

Some of his goals as Dean include enlarging WGWG and making it a commercial, rock-n-roll station, as well as promoting the wearing of polyester on campus.

"Gardner-Webb, at present, is almost entirely a natural fiber

campus and I'd like to see a lot more polyester, double-knit leisure suits on campus as well as a few more girls who look like Loni Anderson."

Welcome Dean Bonner! We hope you are able to achieve your goals and have a successful reign at G-W!
