OCTOBER 22, 1965

Fall Fling Weekend To Feature 'The Tams' And Two Groups of 'The Magnificents

O'Herron Makes Gift

Construction of a swimming pool in the new physical education plant for St. Andrews Presbyterian College will be underwritten by a pledge of \$100,000 made this week by Mr. and Mrs. Edward M. O'Herron , Jr. of Charlotte-

The Olympic-size indoor pool will be a memorial to their son.~ Edward M. O'Herron, III, who was active in athletics as a student at St. Andrews, He had been a member of the college's first golf team and a charter member of the Lettermen's Club. The gift was announced by President Ansley C. Moore for the trustee's building committee, which recently approved preliminary plans for the total physical education plant. Working drawings are now being prepared by the college architect, A.G. Odell, Jr., of Charlotte.

The pool will be equipped with three diving boards, two of onemeter height and a three-meter board. It will be used for recreational swimming as well as intramural and intercollegiate teams, with seating for 200 spectators.

In making the gift, the O'Herrons told President Moore, "We feel that St. Andrews was a most constructive influence in the life of our son, and we feel very fortunate that we able to express our appreciation in this manner so that St. Andrews can be better equipped to aid, educate and influence the young people who seek the guidance of your school."

Plain & Fancy Set To Open

JAPANESE PRINTS

A showing of 40 Japanese prints from the period of greatest popularity for printmaking in Japan is now being exhibited in the Vardell Building on the St. Andrews Presbyterian College campus.

Works by artists Kunisada, Hiroshige, Tayokuni, and Hokusai in the show represent their activity from the late 18th to the mid-19th century. Japanes prints first came to the attention of Western artists after Admiral Perry negotiated a treaty in 1854 opening Japan for trade. The prints were discovered on papers used by the Japanese to wrap wares shipped to Europe.

According to John L. Dahl, assistant professor of art at St. Andrews, the prints show a development of line, space, and color. They seem to have had a great influence on such19th century painters as Gauguin, Van Gogh, Degas, Sargent, and Whistler.

This exhibit comes from the Phifer and Griffin Collection of the North Carolina Musuem of Art, and was prepared for travel with funds from the North Carolina Art Society.

To be shown during the month of October, the exhibit will be open to the public on weekdays from 9 a.m. to 6 p.m., and on Sundays from 2 to 5 p.m.

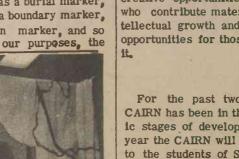

THE TAMS - FALL FLING FEATURE

ans ssue The CAIRN is the St. Andrews

Literary Magazine, Cairn is a term denoting a conical heap of stones used as a burial marker, a landmark, a boundary marker, an exploration marker, and so For our purposes, the forth.

LNTIOURS:

CAIRN is a landmark of unlimited exploration which will provide creative opportunities for those who contribute material and intellectual growth and enjoyment opportunities for those who read

For the past two years the CAIRN has been in the embryonic stages of development. This year the CAIRN will be delivered to the students of St. Andrews. Extensive time, work, and interest already have been contributed to the pre-natal phase of the CAIRN publication, However, the 1965 birth of the CAIRN will be possible only through your interest, assistance, and support. This year the preparation and publication of the CAIRN is under the editorship of Marion Diack and an Editorial Board; Jerry Hurst, Helen McPhail, Roger Stevens, Mrs. Barbara Whitley, and Minnie Kelly.

Fall Fling promises to be one of the biggest and most exciting weekends of the fall semester. The theme for this year is "FALL FLING '65."

Friday night from 8 until 11:30, the Magnificents will play for the semi-formal dance. The theme for the dance, to be held in the cafeteria, is Andre A Go-Go!

The featured event Saturday afternoon is the Fall Fling football game. This game will be a powderpuff footballgame between Granville and Albemarle. It begins at 2:30. Before, during, and after the game, entertainment is promised.

The final event of the weekend is the informal sock hop to be held in the Liberal Arts Auditorium from 8 until 12. The Tams are presented in two shows featuring such favorites as "Hey Girl, Don't Bother Me", "It's All Right", and "The Concrete Jungle". The group planning to provide music for the remainder of the evening is "The Magnificents". This group is not the same one that is playing for the Friday night dance.

The tickets are on sale upstairs in the Student Center. Prices are \$1.50 for the Friday night dance and \$2.50 for Saturday. Girls who go to the dances Friday and Saturday night will have late permission.

To add a bit more excitement to the weekend, the Senior Class is sponsoring the Fall Fling Raffle. One Sero shirt and one Country shirt from Barron Mills, Inc. are to be the prizes. Chances on these items may be purchased Friday and Saturday in the Student Center for 25¢.

Science Program To Be Explored

A panel of six science and education consultants will explore the future science program for St. Andrews Presbyterian College in a three-day meeting October 18-20.

Next Week

A delightful variety of music is presented in the musical comedy, PLAIN AND FANCY, which will be given by the Highland Players Tuesday through Saturday, October 26-30. The show opens with the rousing number, "You Can't Miss It", in which the chorus gives direction to the New Yorkers on how to reach Bird-In-Hand. From the familiar love ballad, "Young and Foolish" to the jazzy "It's a Helluva Way to Run a Love Affair", and from the stirring "Plain We Live" to the rollicking "How do You Raise a Barn", the musical is full of catchy tunes and lingering melodies.

Highlighting the second act is the carnival ballet in which the rhythm of "Scranton Sal" is repeated in the movements of the dancers. "City Mouse, Country Mouse, sung by the Amish women in the kitchen is a clever comment comparing the wiles of women in the city and the coun-

to enter the student teaching semester in the winter semes. ter are reminded that they are to complete the Personal Data forms during October as well farming life.

ANNOUNCEMENT FOR STUDENT TEACHERS All senior students who plan | as in addition the necessary reference forms. Forms may be attained from Room 110 in the Liberal Arts Building or from the Office of the Dean of Stu-

dents in the Student Center.

Students who are interested in contributing to the CAIRN in any capacity (creative writing-- essays, poems, plays, short stories; art work, typing, copy reading, layout, publicity, etc.) are asked to contact the editor, Marion Diack at ext. 325 or box 878. Right now, the CAIRN is especially in need of art work (line drawings, ink drawings, linoleum cuts, etc.)

The first issue of the CAIRN will be out by late November or early December. To encourage more student participation, the first issue will contain the details of the writing contest for next semester.

Working with college faculty and staff members, the group will discuss curriculum improvements to programs for science majors, for teachers of high school science, and in the basic science course.

Participating will be Dr. Arthur Roe, head of international science activities for the National Science Foundation; Dr. Carey Bostian, former chancellor and professor of genetics at North Carolina State; and Dr. Irving Foster, chairman of mathematics and natural sciences at Florida Presbyterian College in St. Petersburg.

Other consultants are Dr. Stanton Leggett of the Engelhardt, Engelhart & Leggett firm in New York; Dr. Jonathan J. Westfall, director of a National Science Foundation Institute at the University of Georgia; Dr. William M. Roberts, a St. Andrews trustee who is chairman of Food science at N. C. State.
