

## Pending Busts For Smoking

Dean Decker recently announced a new policy for smoking on campus. Smoking within suites is acceptable; however, students leaving their suites at any time with a lit cigarette will be liable to punishment unless they have received prior permission from the Dean.

"This is being done in an effort to improve the college's image and cut down on pollution," a source in the administration noted yesterday. "Students wishing to smoke at any time outside the suite must fill out a six-page permission slip to be signed by the suite leader, dorm president, Dean Decker and the new Dean of the College, Timothy Leary. "Of course," continued the spokesman, "smoking in class is totally prohibited since it interferes with the pedagogy of professors and a breathable atmosphere."

## HOUSE OF FOOLS

The St. Andrews P.E. Department viewed from the inside out appears to the student as a manifestation of confusion. The following are some examples of this hodgepodge:

- (1) Coach "talk a lot" Boyd has been "busy" lately -- Badminton, anyone?
- (2) Tar heels lose N.I.T. -- ineligible player.
- (3) Dr. O.A. Hackney discusses intelligibility in class.
- (4) Griffin holds back Polster and sends team to shower -- to hide.
- (5) Coach Kinne (alias Frito Bandito) plays with midget league soccer goals.
- (6) "Body" Mechanics Williams giving up talking for Lent!

It's been rumored that Dodson and Cooper are planning a coup d'etat of the P.E. building.

April Fool

## Changes Envisioned By Head

(Continued from Page 1)  
detailed study of the theory and practice of Zen Buddhism. Students will reside for three weeks at an isolated monastery north of Tokyo, paying for the trip by working there at the same time.

The English department will offer a trip to Moscow for a study of Russian literature -- in Russian. Students wishing to go on this trip will study Russian during the previous summer. In other areas, the science department will offer two trips -- one to the South Pole for a study of Antarctic birds and another to Nepal for a study of Himalayan geology -- concluding with attempts to scale Mt. Everest, led by native guides.

The Politics department will offer two special courses -- especially interesting to politically motivated students. One group will travel to Red China for a close-up look at the working of an individual village. This will include three weeks of farm work and political

classes. Another course will go to Normal, Nebraska for a study of the Silent Majority.

## Faculty

(Continued from Page 1)  
gave way to a few more chuckles and then called for a vote. The Committee approved Mr. Bartoon's request with one stipulation, that he pay double tuition, and that the extra money be given to the members of the Committee.

In other actions, the Committee decided to close the College down as a result of the main sewage drain bursting in the basement of the Student Union. Remarked one of the student members, "This will close down SAGA's food stores until the pipeline can be fixed, since the sewage seems to be one of the main produces used-sort of a recycling process."

The final act of one day came as a result of a motion from Dr. Rollan Other to go down to Jerry's and check out their cheese cake, on the Dean's budget, of course.
