## Knights Whip Strong Westfield Team

St. Andrews baseball team went into their doubleheader with undefeated Westfield State with a record of 3 and 8. When Westfield State returned home they had two losses: two Saint Andrews victories. The first game went 10-5 with 14 hits in the game. Keith Betts brought in the first run of the game with a home run. Whitby followed in the second on a triple from Lazzari, then Betts returned in the third for another home run which brought in Bland leaving the score at the bottom of the third 4-0. The fifth inning was batting practice for the Knights with hits by Dean (triple) Ray, Gamble, Scott (double) and Bland. Dean made the final and tenth run in the sixth in a double by Gamble. Barber was the winning pitcher with a save by Eric St. John. The second game was 10-3 victory with runs by Scott (2), Betts (2), Ferrell, Whitby, Dean, Lazzari and Harrison (2). Scott went 4 for 5 in the game and Ferrell and Harrison both hit doubles. Dean gave up 9 hits and 0 walks for the victory.

St. Andrews next confrontation was a disappointing double header with Methodist St. John pitched an excellent game giving up only 2 runs (1 earned) only 5 hits, no walks and 4 strikeouts. The game ran tied

until the bottom of the seventh inning 1. Carrigg made St. Andrews only run in the 3rd by stealing home. In the bottom of the 7th with one out the batter hit the first pitch over the left field fence robbing St. John of a well deserved win.

Methodist walked away with the second game 2-5. Both St. Andrews runs were scored by Rick Scott. Dean was the pitcher giving up six hits and 3 earned runs.

St. Andrews bounced back against N.C. Wesleyan on Tuesday with a double victory. St. John pitched a 10-2 victory giving up only 3 hits,

St. Andrews held batting practice once again in the 3rd and 6th innings with 4 runs in each inning; 2 in the fifth. Everyone got at least one hit with doubles by Scott, Dean and Carrigg and triples by Scott and Betts.

The second game was a cliff hanger with St. Andrews leading 7-0 in the fourth. In

the sixth inning the score was tied 7-7 and the bottom of both line ups in. It wasn't till the extra eighth inning with bases loaded that Mike Polsun walked to bring Neal Gordon in for the winning run.

St. Andrews heads for Virginia Wesleyan on the 15th with a record of 2-4 in the conference.

## Environmental Studies In Danger

disciplines with Dr. Miller coordinating the program.

Dr. George Fouke took over the program when Miller left St. Andrews in 1976 and coordinated activities until the 1977-78 school year. Fouke is currently taking one year leave of absence in Chapel Hill. The major also lost the Religion and Economics programs at the culmination of the 1975-76 school year.

The program has been taken over by Dr. Jones and currently has three participating faculty, A.L. Applegate, W.M. Alexander, and C. Bushoven representing Biology, Philosophy and Politics disciplines.

Students and faculty alike have complained that the program is not fulfilling the

original intentions. Unless changes in the existing program are instigated, the Environmental Studies major may be abolished or altered toward the science program.

The feeling of some of the students is a dissatisfaction with the organization of the major and attitudes of the Environmental Studies faculty. The Environmental Studies courses take a lower priority to the full teaching loads of the faculties' own programs. A major contention involves the lack of Environmental Studies courses which are offered. The 1977-78 catalogue requires seven Environmental Studies courses with four at the 300-400 level. Many Environmental Studies majors have found it

difficult to fulfill the number of required courses which has jeopardized the contracts of several upper level students.

Faculty members have complained that they have been burdened with extra course loads in addition to their already full teaching loads. The lack of a structured program has made it difficult for scheduled meetings.

Jones met with Dean Crossley and together with faculty members will be scheduling Environmental Studies Research and Senior Seminars at a specific time rather than TBA.
