

Search For Nazi Continues

BY SUZANNE MUMMA

The search for Dr. Josef Mengele, the Nazi fugitive known as the "Angel of Death," continues after senior Paraguayan officials agreed with a Nazi tracking team to help step up the process.

Mengele became a Paraguayan citizen in 1959, but his citizenship

was revoked 20 years later when pressure built up for his capture. Mengele was the former Auschwitz concentration camp physician who personally selected 4,000,000 prisoners to die in gas chambers.

SAPC Trash Dump

Beginning a few years ago, trash accumulation at the dumping grounds on school property has accelerated. Trash from local

citizens and St. Andrews maintenance crews is pictured here in this sight which is common along the roads on school property near the Morgan Jones Science Center.
