## YOUR GRADUATION

I wanted to buy you the perfect gift  
for your big day  
But there is no gift to give  
I've already given you everything I  
can  
My heart, my soul, my all  
Besides, every gift I've given has  
been returned in some way  
It's as if you are afraid of my love  
Yet our understanding of each other  
is greater than we realize  
We've learned to accept each other  
for who we are and not what we  
are  
You can never give back the  
memories  
Remember the good, forget the bad  
Times we've shared and times  
we've cared  
Will never be forgotten  
There's a rainbow for you and a rain-  
bow for me  
Leading to a "pot of gold"  
Don't forget that the sun "will shine  
in the West"  
I only hope that you are there to en-  
joy the rest  
We seem to have our priorities in  
order  
And we will both achieve our goals  
No matter what you do and where  
you go in life  
Please don't forget about me  
Time cannot be measured in any  
facet  
Just as our relationship has no  
bounds  
Are we destined to be somewhere  
in time  
United lovers forever entwined  
Above all things, remember that I  
still love you  
And I always will  
You'll never be alone because I'll  
always be your friend  
And I'll always be around
