

Dr. Wooth, Guest Speaker on Student Life

Well known psychiatrist and sex-therapist Dr. Wooth answered the prayers of many students at St Andrews when she agreed to come and speak about campus life. The doctor is famous for her insightful diagnosis about the inner workings of the normal mind. The topic for her speech was 'Reasoning in the Magic Kingdom: Animal Themes and You.'

She choose the Student Life Office because it is the one area on campus that was not ashamed of its psychosis.

"Take ze names that it uses to identify itself--cub and sow. Very refreshing to see such candor in a bureaucracy."

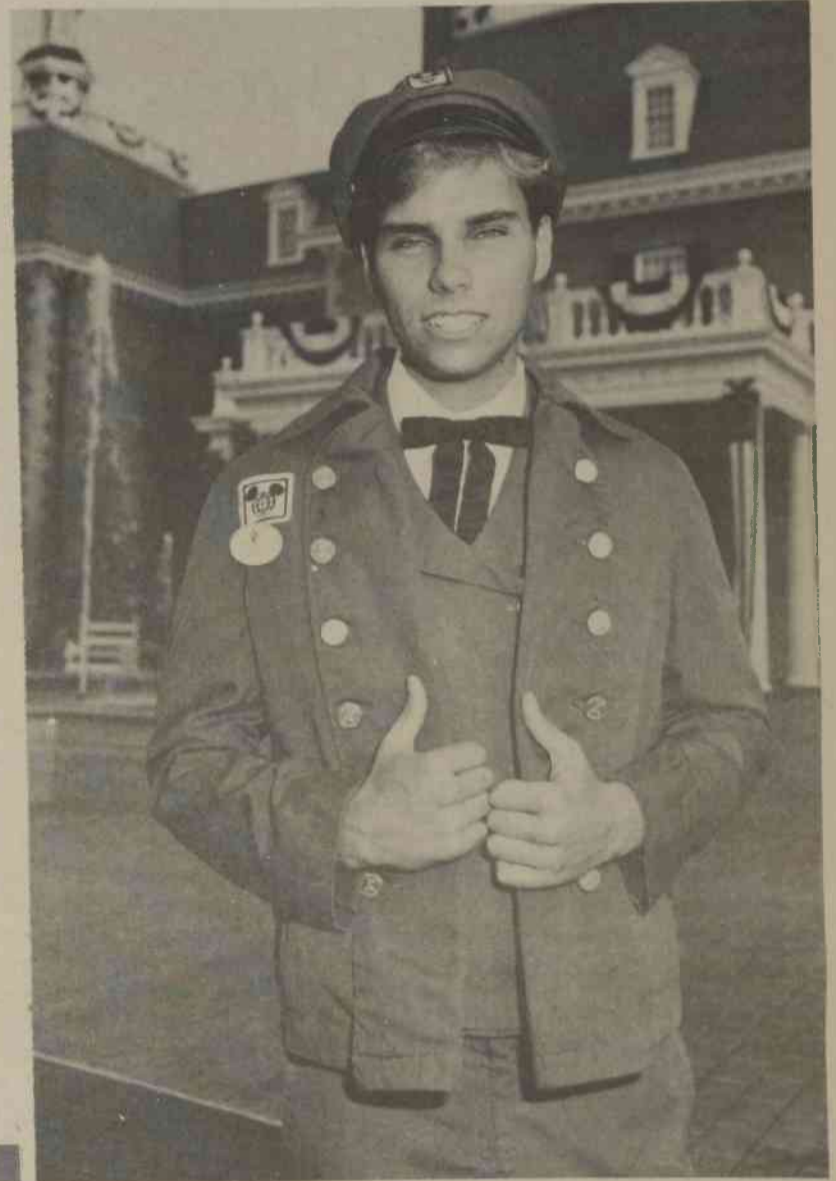

Dr. Wooth also spoke on the alleged apathy on campus.

"Nonsense. I bet ze beds are jumping. Zis school is not suffering from impotence. Maybe you just haven't met ze right partner--male/female, it makes no difference," she said.

During the question and answer period at the end of her talk the renowned speaker fielded some tough ones from the students. One member of the community, who asked not to be identified, wondered how to deal with people who work SLO. "Foreplay!" directed Dr. Wooth, "It is all in ze wrist."

"But what about the funny clothes they wear to the office?" the student queried.

"Tell them to leave their fetishes at home in ze closet. The proper business atmos-

"Take ze Mickey Mouse courses and let ze administrators of ze Magic Kingdom do their jobs without petty interference," says Dr. Wooth.

Students packed the Belk Center to hear Dr. Wooth's Insights on student life.

sphere must be maintained." Wooth said.

Another student raised the perennial problem of student rights. Dr. Wooth said that the reason that most students choose to attend this school is because of the illusion of freedom. The only problem was that a couple of radicals had put into the student bodies heads that reality is better than fiction. "Ve all vant delusions, not rights. Anyone who tells you differently is just trying to stir up ze trouble," she said.

She ended her little lecture on a positive note. "Zis is ze last

time that you students are freed from the concerns of ze real world. Take ze Mickey Mouse courses and let ze administrators of ze Magic Kingdom do their jobs without petty interference. Only in zis way can you overcome your infintile attachments to authority figures."

The visit by Dr. Wooth was sponsored by the Religion and Philosophy Departments as part of their gender-blending conspiracy. The school decided to invite her after they determined that St Andrews was unable to afford Rene Richard's speaker's fees.
