

New Staff (continued from p.1)

Professor Bynane knew that he wanted to teach at a small LA college. He believes that it offers the best educational atmosphere. He also told me that here at St. Andrews the theater program is basically being rebuilt. He finds it exciting to be in a position to build an entirely new theater program in his ideal way.

What do you hope to accomplish while here?

Bynane hopes to restore consistency to the theater and production program. He would like to see the program become more accessible to all students and not just theater majors. He would also be delighted if people would come to the first theater production "To Much Light Makes the Baby Go Blind" or "Thirty Plays in Sixty Minuets" which premiers on November 5-6 and 12-13.

Other new faculty and staff

Sean Moore	Music Accompanist/Instruct of Music BM, Memphis State University, 1990 MM University of Memphis, 1997
Daniel Ott	Visiting Instructor of Religious Studies B.M., Western Virginia University M. Div., Louisville Presbyterian Theological Seminary Ph.D. Candidate, Claremont Graduate University

Rachel McMahan	Instructor on the Equestrian Program BA, VA Intermont College 2002
Rodney Jack	Visiting Faculty in Writing, part time Coordinator of the Writing Center MFA Creative Writing, Warren Wilson College, 1999
Michael Lawson	Head Coach, Lacrosse

The State of the Nation (jump)

minx man comes. 2) the temperature will starts cooling and then two things will happen: A) the humidity will drop B) the bugs will go back outside and die. Bugs cannot make it through winter time. (i.e.. when it is cold we don't get eaten by mosquito's in Orange.)

This year there are a few main objectives; make the judicial process more efficient, work with the faculty and administration with respect to academic dishonesty, and to have an intranet system put into use, where we would have an online student forum. In which you could post questions or any question you may have. This new system will come close to completely eliminating the issue of the perception of lack of communication and in fact, what has become the lack of the dissemination of information. This could take possibly into next semester to implement. We have to work with the Office of Student Affairs, Computer Services, Communications and the Office of Institutional Advancement. Also, working

parallel with Student Government is the Special Events Committee. We are working on voter registration and a political debate in light of this years Presidential race. We in student Government are plugging away. We still have half a semester left, and there is much work to be done.

We are planning to have a student forum, a town hall style function on Thursday, October 28 at 8:30pm. In the Belk Center. We will have food and drinks for all in attendance. At this function we plan to illustrate to you what we are doing and what we are planning to do. Also we plan to take question, comments, concerns and any ideas you may have. We must take this even serious, if we plan on having any collective voice with the Administration we all must work together. Think trees being cut down, hot water. All that stuff- we need every ones help.

To move from this, our major goal for Student Government this year is to increase

Communication and the dissemination of information. We feel the best way to do this is an online student forum. Like a message board. Where we students could log in and post questions concerns ideas homework help. Anything that you need information about post it and some one else that knows the answers or has suggestions, can give you a reply.

We are also working with the administration with new student recruitment, we had an open house the weekend of October 16-17. It was a wonderful success, all our numbers are up. I at this time would like to make a request of everyone reading this. When you see a campus tour or visiting students, smile and say hello. That is what this campus is about and we need to show it and not just talk about it.

Thank you for taking the time to read my article and if you need anything please feel free to ask. Email me at parsons-foresidb@saoc.edu or call me at extension 2011.
