### **Alumni Notes**

In response to requests of the State Normal School paper staff, Alumni have sent in interesting accounts of some of their activities in which they are now engaged.

Editor of the Journal and Guide for the past six years. During my career, in an official capacity, I have covered such well known newspaper stories as the celebrated Prince case, in Danville, Va.. the William Harper and Robert Lee Johnson cases in this city, and more recently the third trial of the world famous Scottsboro cases in Decatur, Ala. in January, 1935. I was elected president of the State Normal School Alumni Association at the annual meeting in May, 1936. At present am serv-ing as a member of the executive board of the annual Community Fund Campaign (colored division) here. Of further interest might be the fact that I am preparing manuscript for a book on my exper-iences as City Editor of a Negro Newspaper, something which I believe has not been attempted before.

While at State Normal, Mr. Hin-ton was active in Lyceum, Y. M. A. and served one term as president of the Athletic Association.

Mrs. D. G. Brandon, class of '29, received her M. A. degree from Howard University in 1932. Mrs. Brandon, who was then Miss Bernice Bias, is doing some very effective work in the Edenton High School where she has been teaching since 1934.

steps of his mother there is no doubt that his future will be a success. She has already paid for the first issue of our school pa-per. Undoubtedly the State Normal School spirit has manifested itself in her.

Evidently they are doing splendid work.

For several days members of the staff of this paper have made close contacts with the Alumni of this school to find some of the most difficult problems that they have met

Many problems were listed. Among the many outlined were problems were listed. the following: Arrangement of a good schedule for a one teacher school, over crowded conditions, lack of materials, disciplinary measures for the adolescent, lack cooperation in the P. T. A. of school buses for children who walk a long distance, purchase of books at the beginning of school, low percentage of attendance, provision for the problem child, and play ground equipment.

This information is valuable to these prospective graduates, as same problems will confront them in their various fields of endeavor. warning beforehand means a definite opportunity for prepara-tion for removal of these obstacles

#### AM I A CITIZEN?

I've studied much about my race. I've learned that we have one setplace.

'Tis there I'll stay or lose my face. Am I a citizen? White statesmen say, "Negro,

you're free;

No longer must you slave for me." White voters say, "He shall not be."

Am I a citizen? Some build trade schools where I

May work. Aspiring high, I do not shirk. Ahead, I see, vast dangers lurk.

Am I a citizen?

Some say my vote is left to me; All I must do is pay the fee. In some great states that's hard

to see

Am I a citizen?

They push away color and race. When I smile in a white dame's face.

They rope my neck; I've harmed my race.

Am I a citizen? They say all men have equal rights My pay is smaller than the whites.

I surely get my share of slights. Am I a citizen? They write, "Discriminate no more. Leave only fairness at his door." But justice they seem to ignore. Am I a citizen?

Why can they not be just to me? Shall I always in this state be? Is there, in truth, no liberty? Am I a citizen?

#### THE FIELD TRIP

By James Allen, 5th Grade

- One Wednesday morning about half past ten
- Our field trip we were soon to begin.
- We were in our room, each sitting straight in his seat
- The radiator was hot; we had
- plenty of heat. Our first stop was at the school's garden,
- The soil was soft and had not yet hardened.

The hot bed was ready for the plants to grow;

About those things we already did know.

We walked by the chicken yard.

- A big dog was the guard. At last we came to some very bad
- dogs; the field were plenty of Across hogs.
- We went to the stable where feeding. Out in the field some men were
- weeding. We went in the back where we
- saw a big pig. I was sure he could dance many

a jig. Give me another flinger like that and I'll grab the pennant.— Bucky Harris, manager of Wash-

ington Senators, commenting on the way the President tossed the first ball of the season.
