MR. B. B. JACKSON SPEAKS

On Wednesday morning, January 7, Mr. B. B. Jackson spoke to the student body on a very timely and interesting subject, "Conflicts Between East and West." In his speech he pointed out reasons for disagreement between these two territories — those causes which have led us to the Korean Crisis.

Dr. Lovejoy Speaks

On Wednesday morning, February 4, Dr. Gordon W. Lovejoy, a Representative for National Congress of Christians and Jews, and an Educational Consultant at Guilford College, Greensboro, N. C., spoke to the student body. Using as his theme, "There Is No Easy Way," Dr. Lovejoy pointed out how much emphasis is being placed on the easy way and how the doctrine of the easy is spread in religion, education, and economics. "This," he said, "has penetrated our thinking of free enterprise. In man's relationship to man; man's relationship to God; and man's relationship to his surroundings, there is no easy way to solve all of his problems".

He proposed four steps as alternative that will direct our thinking in the solving of our problems. They were: (1) Get the basic facts. (2) Re-examine what Democracy means. (3) Abandon lethargy and indifference that is shown when we face major problems. (4) Re-examine basic teaching of the religious faith to which we profess allegiance. "We should," said Dr. Lovejoy, "understand the doctrine of our own faith." When we examine our own faith, then petty suspicions of others disappear. Religious faith is the right of every individual in this land of ours.

In concluding, he emphasized the need for good human relations, leaving with the audience two thoughts: that we are one land, a model of from one to many, and that "The price of Liberty is eternal vigilance."

P.T.A. HONORS DR. WILLIAMS

The North Carolina Congress of Colored Parents and Teachers honored President S. D. Williams and other North Carolinians recently when it celebrated the twenty-fifth anniversary of its founding. President Williams for five years was executive secretary and was recently elected to life membership in the National Congress of Colored Parents and Teachers.

On November 18, the President addressed the student body and faculty of Fayetteville State Teachers College. Using as his theme, "Thinking as a Means Toward Better Living," he called attention to the need for acting upon the basis of thinking rather than upon impulses. In the afternoon of the same day, President Williams spoke to the entire faculty. Following his talk, much time was given to questions and answers.

President Williams attended the meeting of the Association of Colleges and Secondary Schools in Memphis, Tennessee, December 1-4. For the first time in the history of the association, this organization held a joint session with the Southern Association of Colleges and Secondary Schools. Principals D. F. Walker of Edenton and E. A. Anderson of Elizabeth City accompanied President Williams to Memphis.
