## Ivies Present

The Ivy Club presented a talent show at the regular Tuesday meeting May 9, 1961. The program consisted of poetry readings, a fashion show, a skit and choral readings. This program was in honor of the newly initiated members of the AKA Sorority. Songs written by Thelma McKisset and Louvenia Magee were sung at the close of the meeting.

The Sorors then expressed their enjoyment and appreciation of the Ivy's presentation. After this, refreshments were served.

The Sorors of the AKA Sorority feel that this Ivy Club will be one of which they can be very proud. They feel this way because they know that the Ivies will work hard and diligently to obtain "Sororship" in the Alpha Kappa Alpha Sorority.

## Ten Make History At ECSTC

A new chapter, Epsilon Alpha, of Kappa Alpha Psi Fraternity was born Saturday night, April 22, 1961, in Elizabeth City, N.C. Epsilon Alpha now established on the campus of Elizabeth City State Teachers College, became official at a banquet at Woodley's Cafe in Elizabeth City following the initiation ceremony conducted by the Rocky Mount Alumni Chapter.

Brother Frank G. Burnette of Durham, North Carolina, Provincial Polemarch of the Middle Eastern Province, delivered the main address. He gave many interesting and inspiring comments that will forever rest in the memories of the Kappas concerning the new chapter of Kappa Alpha Psi.

Ten sturdy men crossed the burning sands into Kappaland. The "Solidified Ten," as they are called, include —George A. Patterson, sophomore; John H. Kendale, sophomore; Joe W. Shambley, junior; Charles Everette, Jr., senior; Oliver W. George, senior; Robert L. Knight, senior; Eddie Sykes, sophomore; Charles S. King, senior; Maceo W. Hill, senior; and William Teel, junior. A week after the Solidified Ten had "gone over," they showed evidence of being true Kappas. Their suggestions and ideas have fitted in greatly in mapping out a program for the school year of 1961-62.

The newly installed officers of Epsilon Alpha Chapter include—George A. Patterson, Polemarch; John H. Kendale, Vice-Polemarch; Joe W. Shambley, Keeper of Records and Exchequer; Eddie Sykes, Strategus; William Teel, Lieutenant Strategus; and Charles S. King, Historian and Reporter.

## Faculty - Student Relationship Discussed

Doles Hall residents, faculty, and other students discussed faculty-student relationship on S.T.C.'s campus with Dr. M. M. Caldwell as the discussion leader.

There were those who felt that the faculty-student relationship is very good on this campus. Some stated that there does not exist a feeling of peace and harmony as far as faculty and students are concerned. It appears that there are students fighting against faculty and vice versa. However, it was also brought out that there are those few faculty members with whom students feel free to discuss problems, and that there are others that students would refrain from making general statements around. Some mentioned the fact that if you are seen talking to some of the faculty members too frequently, you are going with them; if you are too friendly with students, this seems to create a problem because people draw the wrong conclusions.

The majority of the students usually say they are happy to leave this place. It would not be that way if better faculty-student relationship existed on our campus.

It was stated that students should be corrected, but these corrections should not prove to be embarrassing to anyone in any situation. The leader of the discussion stressed the point that there is a way to do every thing. The question was asked, "What can we do to bring about a better faculty-student relationship?" No final conclusions were reached.

## Guy In The Mirror

When you get what you want in your struggle with life  
And the world makes you King for a day, then go to the mirror and look at yourself and see what that guy has to say.  
For it isn't your Father, or Mother, or wife, whose judgment Upon you must pass; the fellow whose verdict counts most in  
Your life is the guy staring back from the glass.

He's the hombre to please; never mind all the rest, for  
He's with you right up to the end, and you've passed your  
Most dangerous difficult test if the guy in the glass is your friend.  
You may ape Jack Horner and chuzzle a plum and think you're  
A wonderful guy, but the man in the glass says you're only  
A "bum" if you can't look him straight in the eye.  
You can fool the whole world down the pathways of years and  
Get pats on the back as you pass; but your final reward will  
Be heartaches and tears if you "cheat-ed" that guy in the glass.

## Dr. Brooks

(Continued from Page 1)  
success, and with this, education is necessary.

Using the Jews as an example, Dr. Brooks told the audience how the Jews had succeeded because they had put education above everything else; how they had been the oppressed people all over the world, and yet had risen to the very top.

He urged students to pursue adventures through music, drama, athletics and debate — to study while they work; to play while they play; and court while they court.

"Take time to dream," he said upon closing, "it's hitching your wagon to a star."  
The presentation of awards to students who had participated in various activities during the year immediately followed the address by Dr. Brooks.
