

Why Not A Strong SCA

There is a sense of apathy felt by observing the lack of participation by members of the college family in organizations and activities on our campus. What are the reasons? Are the membership storages indicative of the fact that some of our organizations are not functioning thoroughly, or is it that they (the organizations) are not influential enough to fit in to the realm of our appreciation? One organization about which I wish to elaborate briefly is the Student Christian Association.

This organization which was once strong in membership and function, has weakened to a very great and noticeable degree. On this campus there were two organizations whose names differed, but whose functions were basically the same. The Young Men's Christian Association and the Young Women's Christian Association.

The S.C.A. is the generally accepted name under which the two organizations function. However, they are still privileged to function locally independently of each other.

The members of the S.C.A. are in the process of launching an all out campaign entitled, "Request For Membership."

Everyone should feel that each organization make-up on this campus is equally as important as another, so long as it contributes to aiding in the development of optimum capacities of our college family — be it special, fraternal, athletic or religious.

In behalf of this organization, I extend a hearty welcome to the student body, faculty and staff. Do Not Wait, Do Not Delay, Become A Member Of The S.C.A. We have gotten off to a slow start but we believe that in numbers there is unity; and we are also aware of the fact that an institution or organization can only be as sturdy as its members. We ask you to contribute and JOIN THE S.C.A. TODAY.

Plan now to attend the Holiday Tournament

December 29, 30, 31
Norfolk State College
Norfolk, Virginia

Who's Who

The Modern Dance Group has met and organized for the 1964-65 school year. Tuesday-night meetings have been held.

Officers for the year are President, Rose Madrey; Secretary, Evelyn Madrey; Treasurer, Brenda Mattison.

On meeting nights, the Modern Dance Group has been learning the fundamental exercises and steps that are properly used in modern dance.

Many new members have joined. The new additions to the dance group this year are as follows: Deloise Beamon, Robert Bowden, Jo Ann Bost, Gwendolyn Davenport, Glendner Garner, Bettie Smith, Kay F. Wilson, Beverly Harvey, Fannie McKnight, Bobbie Mallory, Clarine Melson, Joyce Mills, and Armelia Whitfield.

Mrs. Valerie Vaughan is dance instructor.

"Today"

By Ingrid East

Men are happy once again; the boufaut hair style is taboo — out. The look is no longer top-heavy. Instead, the head appears sleek and small, and younger than ever.

Hair lengths are from short to medium and definitely not below the shoulder. Why? Long hair can not afford or either complement today's smart saucy, eye-catching fashions.

Try the look yourself, with a full bang set off by curves and deep waves or swirls and a few curls worn snug to the head.

Your ears are either one extreme or the other; that is, they are bare or plush. For evening wear, earrings are long and slim, or lusciously clustered. Then for casual attire the ears are free of all adornment. This is the time when your hair can embellish the ears.

If you find, however, that you cannot resist the full, puffed appearance, try the new pill box "hair" hats.

By using these hints, how can any gentleman resist?

Yearbooks For Sale

- Copies of the year book, dating from 1950 through 1964, are available for purchase according to the information below.
- 1960 issue through 1964 issue (5 copies)\$10.00
- Single Copies
- 1960 issue—(Paper Back)...\$.75
- 1960 issue—(Soft Back)..... 1.00
- 1961 issue 1.50
- 1962 issue 2.50
- 1963 issue 3.50
- 1964 issue 4.50

The prices above include mailing costs.

Students who are currently enrolled at the college may purchase the whole package for 10% less than the prices listed above, thus eliminating the need for mailing.

Place your orders with the Yearbook Committee, Publications Office, Elizabeth City State College, Elizabeth City, N.C. Make checks or money orders payable to Yearbook—Elizabeth City State College. Orders will be filled as they are received as long as the copies last.

Get Your Yearbook on Time
The Yearbook Committee plans to issue the 1965 Yearbook to students prior to June 4, 1965, the date on which the Regular School Session ends officially. Any student who fails to get his copy prior to June 4, 1965 and who wishes a copy to be mailed to him must send \$.50 and a request for mailing to the Yearbook Committee, Publications Office, Elizabeth City State College, Elizabeth City, N.C. before June 30, 1965. Requests received after this date will not be honored.

RETURN SAFELY!

Be a Good Spectator

By Jethro Williams

There are few persons who possess the potential, capacity or desire to be an outstanding participant in sports, but there are none who do not have the qualifications to be a good spectator.

What are the qualifications? First of all one must make his attendance known if you do not attend games then you aren't a spectator.

Another qualification is to have some knowledge of the game. It is almost impossible to enjoy something which you know very little or nothing about. It is as important to know when not to cheer as it is to know when to cheer.

For instance, during a basketball game when a person is at the free throw line it is good sportsmanship to remain quiet. Show your respect when the visiting team is attempting a free throw.

Officials are human even though they may not show it at times. We all make mistakes so why can't be. "Booing" displays one's ignorance.

There was a fine turn-out for the first basketball game, and the spirit was quite high. Nevertheless, there are those who did not attend. Please give the basketball team your support for the coming games. Good spectators are fifty percent of the game.

Falcons "Whipped"

On December 8, the home court of the "Vikings" was invaded for the first time this season by the "Falcons" of St. Augustine, Raleigh.

Both teams got off to a running start. St. Augustine found it hard to keep up the pace and with no more than 4 minutes of play, trailed by more than 10 points.

The sharp shooting of Richard Todd got the "Vikings" on the move as he poured in a game high of 20 points. Gary Stubbins hit from all corners of the floor. He was able to contribute 12 points to the cause.

Fredrick Lewis, James Williams,

Rain Baths

During the week-end the dams of heaven burst and all the water in the universe seemed to explore Elizabeth City. It left nothing in its path untouched.

The trees bent their heads as those diamond-like drops beat down upon them. The leaves shivered when they felt the heavenly water on their necks. However, the grass did not seem to mind being drenched by that inevitable giant, for it was long overdue.

The rain bounced on the pavement and left it as clean as a thin sheet of ice.

Every house and building that I saw seemed to give rise to a new life as they took their baths from that endless rain. The window panes cried tears that would have made excellent icicles had the temperature been low enough.

As for me, yes, I received my bath too. I stepped gracefully as anyone could from my dormitory entrance to the Lighthouse when the wind took my umbrella and left me standing there being bathed fully dressed.

Basketball Round-Up

For all of you eager-eyed hoopers, varsity basketball once more enters into the sports world of ECS.

The season opened with the first games on visiting courts. Coach Vaughan and his mighty "Vikings"

1964-65 Basketball Roster

NAME	NO.	HT.
Mackey, Claude	00	6-2
Stubbins, Gary	4	5-10
Williams, James	12	5-8
Lewis, Frederick	14	5-8
Davis, Charles	20	5-9
Lamb, Willie	22	6
Lansden, Leevon	24	6
Lewis, Clifton	30	6-3
Robertson, Paul	32	6
Brown, Douglas	40	6-7
Smith, Oscar	44	6-7 1/2
Thweatt, Alexander	50	6-4
Todd, Richard	52	6-5
Neal, Frank	54	6-4

Coach: R. L. Vaughan
Trainer: Alvin Kelley
Student Manager: Rudy Bell
Statistician: Ronald Coleman

first journeyed to Winston-Salem to face the mighty "Rams" on December 1.

Hoping to improve upon the previous season's record, the team arrived on Winston-Salem's campus with high hopes. Always one of the top powers in C.I.A.A. competition, the "Rams" would not be denied. With Richard Todd hitting from all positions on the hard wood, the "Vikings" were able to stay within close range. Todd was given many assists by the fine play-making of Frederick Lewis, a freshman from Brooklyn, New York. Not only did he get up various plays but played a big part in the actual scoring. Gary Stubbins was no more than his normal self. He was high in the double figures and despite his height was able to grab leisure rebounds off the boards.

Claude Mackey, Clifton Lewis, and Charles Davis gave fine performances; however, their performances were not enough as the "Vikings" went down by a score of 94-85.

From Winston-Salem, the "Vikings" started their travels back east, stopping at Shaw University on December 2 to entertain the Shaw "Bears." Bitter from defeat the "Vikings" tried in vain to equal the score at Shaw.

Both teams displayed fine basketball as the lead changed hands many times. Once more the Todd and Stubbins scored high and rookie Frederick Lewis made himself known. The game ended with the Vikings losing 82-79. Frank Neal and Claude Mackey did a fine job in the rebound department.

Returning home and ironing out a few mistakes, the "Vikings" invaded the court of Delaware State on December 5.

Many played a part in the exciting game. The super stars were Gary Stubbins, Richard Todd, Frank Neal, Claude Mackey, and Frederick Lewis. With such a fine show, the game had to go into overtime, with the "Vikings" winning 99-97.

Physics Department Given Carnegie Grant

The Physics Department has recently been awarded several pieces of laboratory equipment from a Carnegie Grant.

Mrs. Mary Ann Franklin, assistant professor of Physics, studied at Cornell University this summer under this grant. Among these pieces of equipment, there is an Angu Momentum, which measures the time it takes to make a revolution; a Michelson Interferometer, which measures the velocity of light rays in a vacuum; a Ripple Tank; Centripetal Force Apparatus Kit; and an Inertia Balance Kit. These instruments are simple apparatus, but they are designed to acquaint the students with the newest developments in Physics on Relativity and Newton's Dynamic.

The Physics that is being taught today in schools throughout the country is being standardized by the Physical Science Study Committee. This study began at the high school level, but has gradually worked its way into our colleges and universities.

An old timer can recall when child psychology grew in clumps down by the creek.

Victor Ryder In Concert

The family and community of Elizabeth City State College were very fortunate to have in concert Pianist Victor Ryder, on November 23, His concert, second of the Lyceum Series, was truly an excellent performance.

At age twenty-five, Victor Ryder is a very gifted young man. Since his early teens, his appearances in solo recitals and with orchestras have evoked praise for his emotional warmth, technical brilliance, and understanding of a large variety of musical styles.

Holder of two degrees from Yale University, Victor Ryder has been for three years on the faculty of Fisk University, in addition to his concert work. His accomplishments in the past argue well for the future.
