

## Halloween

By Terry Gibson

Do you remember the excitement of your halloween night? Do you remember the stars in your eyes, at the thought of all the candy you would receive? The Ivy Leaf Pledge Club saw little remembrances all around them Halloween night. They saw stars jumping in smiling faces, heard the joyful laughter of little voices, and felt the sense of excitement that ran through the little bodies.

The members of the Ivy Leaf Pledge Club helped to promote a successful Halloween night for many young kids. They participated in the Halloween program that was set up at the ENC-OIC (Eastern North Carolina-Opportunity Industrialization Center.)

The activities that were available for the kids included pin-the-tail-on-the-donkey, bobbing for apples, bingo, haunted house, and pitching pennies. Prizes were given for each game that was won.

The kids were not the only ones with Halloween spirit, the Ivy Leaf Pledge Club dresses for the occasion to help promote the Halloween spirit. Their costumes included facial makeup, glitter, and wild hairdos.

## Sports Brief

The Viking wrestling team will have a new look this year. Gone are Raymond Morgan ALL CIAA three years in a row. Lazarius Simmons ALL CIAA. These Vikings provided leadership as well as skill for four years, now they are gone. However, the Vikings will still be tough with a few steady veterans returning. Leading the way will be Pete Horton at 118 pounds, Mike Davis at 158, Percy Bunch at 142, Keith Mitch at 126, and Cecil Doyle at 134. With these veterans and Foxy Coach Little the Vikings will be on the War-path.

Judging by the above picture, certainly the children enjoy the Halloween party given by Alpha Kappa Alpha Sorority.

# U.C.R.F. Plans Activities

By Daniel Dunn

The United Campus Religious Fellowship Organization is sponsoring several activities starting November 13 - December 4, 1977 at various locations in North Carolina and Georgia to maximize religious growth during the year.

During the months of November and December several events are planned. Sunday November 13th, they will present a church service on the campus of Shaw

University. The speakers for the service will be Dr. Thomas E. Carter, Assistant to Chancellor Thorpe and advisor on Religious activities on E.C.S.U. campus.

A religious retreat is planned for November 18-20 at Camp New Hope. Members from the U.C.R.F. organization will be participating in the retreat. Also on December 27 - January 1, 1978 a delegation from this University will be attending the National Convention in

Atlanta, Georgia.

A highlighting event sponsored by U.C.R.F. each year will be the "Baskets for the Needy" program that will be accumulated at the Youth for Christ Rally and pre-Thanksgiving Service on Sunday November 20, 1977 at 4 o'clock in the afternoon in Moore Hall Auditorium. The speaker for the service will be Rev. Leroy Woolard. A special congregation will be featured on the program.

The first attempt at having

a church service on campus this semester will begin on Sunday, December 4, 1977 in Moore Hall Auditorium at 6:30 P.M. The speaker for the service will be Charles Boone, a freshman Sociology major here at the University.

## Dr. Davis Speaks

Dr. Edna L. Davis, Chairman of the Music Department and Counselor of the Kappa Delta Chapter of Kappa Delta Pi National Honor Society in Education on our campus, was the speaker for the early Fall meeting of the National Honor Society of Northeastern High School in Elizabeth City.

Using as her subject, "How Can You Get Ready?", Dr. Davis advised the members to continue to pursue scholarly efforts, keep their values in proper focus, look seriously at the matter of choosing a career, and prepare themselves to be able to use leisure time in a rewarding manner. She stated her firm belief that if students followed the four suggestions given, they would be ready to meet the challenges in Education, the work of work, and society in general.

The members of the Society, many of whom are music students, were extremely demonstrative in expressing their appreciation for Dr. Davis' remarks. The joined wholeheartedly in the period for comments and questions that followed.

## Study At Boston University

Boston, Mass.-(I.P.)—Boston University's College of Engineering and Center for Energy Studies have developed a methodology for designing energy conservation programs primarily suited for institutional buildings. It includes the assessment of technical improvements of the building, changes in maintenance and operation policies, alternative energy technologies and educational aspects of energy conservation.

The methodology was the result of a research project conducted by a student seminar. "The result of its application is an ordered conservation program in which savings realized from the first measures are used to underwrite the cost of later measures," explained Michael McClintock, a research fellow of the Center and the professor who conducted the seminar.

"It becomes possible to pay for a part of the program out

of cash flow rather than through capital fund raising. Many of the measures will continue to save, long after they have been paid for. An economically rational energy conservation program has the potential to provide some of the highest returns on investment at the present time."

A 100-page report written by the members of the seminar rates the proposed conservation measures in terms of a benefit-cost ratio. Benefits are described as "the present worth of future estimated savings in energy expenditures, allowing for future estimated savings in energy expenditures, allowing for future energy cost increases, less the present worth of any additional operating and maintenance expenses the measure brings about, allowing for inflationary increases in these expenses." The greater the ratio, the more economical the proposal.
