Welcome

Yes, it's the "The Compass" and we're back. Take the time to read the pages. You'll see many old and new faces and names.

The staff is a creative group expressing new ideas for the future of "The Compass."

In the past, the paper remained in the shadow of other school activities. We, the staff, plan to change this to represent the newer ideas of all the students.

Our goal is to provide information, news, and entertainment to the students, faculty, and administration.

Keep looking for the next issue. You never know --- we may be talking about you.

Later,

Lynette Gutridge,
Executive Editor

The Student Government Association conducted a meeting Tuesday, September 7, 1982. The topics discussed were social events, rules, and regulations. From the discussion on new regulations, a debate about the room inspection system arose.

The residents of the new complex oppose the mandate which grants the housing director authority to enter student rooms without occupant permission or knowledge. Students feel that this is an invasion of privacy. The rooms are built for one person in order to assure privacy.

Charlenzo Belcher, SGA President, pointed out that the newly adopted rule is a rule and would have to be accepted by the student population. The discussion became quite heated, with each side offering opinions, but no conclusion could be reached.
