### Maintenance Dept. Pleads For Help

Students should be proud of the fact that their dormitories, classroom buildings, campus grounds, other buildings, streets and the surrounding areas are kept clean and tidy. They do not have problems with insects and other pests. They should appreciate the people who daily give them this care.

Yet, the maintenance department wonders if students appreciate them at all. Many of their actions are not examples of grown men and women. Even though pleas are extended to the residential students to refrain from placing clothes hangers in the incinerators along with soft-drink bottles, many students continue to do this. This only makes it inconvenient for the other students who reside in the dormitory. Paper is thrown on the campus grounds and the bright red and white trash receptacles are overlooked.

Soft drink bottles are left on window sills, in the halls, or along the steps and walks surrounding the buildings. Students are provided with the proper waste receptacles so these acts of childish carelessness are unnecessary. Responsible adults take more pride in things of which they are a part.

Won't you prove that you know and put into practice your responsibilities as a member of the college family? We enjoy serving you but won't you help us to be of more service? The time we spend picking up, repairing, and cleaning up after you could be spent doing other things in your behalf.

### O'Kelly Library: Campus Paradise

By Gail Owens

The moving from the old library to the new C. G. O'Kelly Library was finally completed Friday, February 16. The library opened February 21.

The new spacious library consists of three floors, the first floor, the second floor, and the basement. There is also displayed a variety of paintings by various well-known artists.

Upon entering the library, one sees the wire sculpture Ram that was given to Winston-Salem State College by the graduating class of 1964. It was designed by Mr. Hayward Oubre, an art professor at Winston-Salem State College.

The first floor includes the main reading area, the librarian's office, and reference and reserve books. "The Wedding Dance" by Pieter Brueghel is on display in the main reading room. "Patterned City" and "Devil Mask and Totem" by Gregory D. Ridley, Jr., a Negro artist, may be seen on the walls of the campus level lobby.

The second floor includes the periodicals, a juvenile and curriculum room along with several other rooms. "View of Toledo" by El Greco is displayed in the reference office. "Landscape" by Sadie C. Coffey is on display in the technical processes room.

The basement includes mainly the stack area.

"A 'stack permit' will be issued to each student who wishes to find his own books among the stacked books, or if he chooses, he may be serviced as previously done," said Mrs. Laney Bradshaw, librarian.

"The students really pitched in to help with the moving," she stated.

The new hours for the C. G. O'Kelly Library were released by Mrs. Bradshaw.

The library will be open from 7:45 a.m. to 9:00 p.m. each day Monday to Thursday; 7:45 a.m. to 5:00 p.m. on Friday; 12:00 noon to 5:00 p.m. on Saturday and 2:00 p.m. to 5:00 p.m. on Sundays.

### Greek Letter Notes

The Mu Epsilon Chapter of the Omega Psi Phi Fraternity Inc. has had a successful year.

The brothers of the chapter are Biffy Watt, Joseph Askew, William Crews, Robbin Kirkland, Ernest Clemons, and Frankie Lucas.

At the conclusion of the last school year it was evident that the cardinal principle of scholarship prevailed successfully as is now evident by the brothers who are on the Dean's List and the brother who made "Who's Who Among Students in American Universities and Colleges."

April's line will number three eager aspirants, Robert Massey, Carl Caison, and Howard Mebane. We wish these young men the best of luck in their endeavor to cross the "Burning Sands" into Omegadom. Their Dean of Pledges, Frankie Lucas, promises to prepare and encourage their success.

Mu Epsilon is growing and the year promises to be the best — following the principles of Manhood, Scholarship, Perseverance, and Uplift in the true spirit of Omega.

A delightful repast was served, Zeta songs were sung, and lively conversations ended the party.

### A Black Man's Prayer

Dear Lord, in the heaven so blue,  
I'd like to ask a favor of you.  
I know I'm just a little black man;  
But please Lord, please understand.  
You see, my people are in great need  
Of someone to help them, will you please?  
They want to ostracize us from the human race  
Just because black is the color of our face.  
Lord we only want our human rights —  
That's the only reason we often fight.  
The white man doesn't seem to realize  
That he's superior only in his eyes.  
When you made the white, you made us too.  
(I think I'm right Lord, is this true?)  
Why do the black people have to plea  
For respect, integrity, and equality.  
We, too, are in the front rows in Viet Nam;  
We lose eyes, legs, hands, and arms.  
Does the enemy shoot the little black man,  
Then turn to shake the white one's hand?  
Lord, help us in all our dismay.  
I guess that's all I have to say.  
In the future, I hope to see  
Love, unity, and equality.

### Students and Faculty Become Blood Donors

Whitaker Gymnasium was the site of the Piedmont Carolina Blood Center recently. The Blood Mobile is sent from the Blood Center, Charlotte, to all points in the Piedmont region. Volunteers from Winston-Salem and doctors and public health nurses assisted in the blood collection.

Mr. D. W. McGehee a Red Cross worker from Winston-Salem said, "This is the first time the Blood Mobile has been at Winston-Salem State College. As time goes on I know we can get more recruiters."
