News Argus Broadens Scope

From time to time it is necessary to reiterate the position of *The News Argus* as concerns topics for publication.

The News Argus is a student publication published by students, for students. Thus, all students may voice their opinions and publicize various activities through the school publication.

Of necessity, *The News Argus* must reserve the right to edit all copy.

Further, students who fail to find satisfactory answers to questions concerning any campus activities (including the administration) may submit these questions to R(am) A(nswer) M(an) column. Reporters will take the questions and exhaust all sources in finding answers.

To date, few students utilize *The News*

Argus in this capacity.

You should remember that this is your paper. If you are not satisfied, consider the basis for your dissatisfaction. Then, complain. When you are not satisfied, we have not served our purpose.

In addition to the service to the students, it is also the task of the school paper to serve as a link between the campus and the community. There is a great deal of interaction between WSSU students and the community at large. The paper should provide information to benefit both groups.

We have to remember — we are not an island. In the future, *The News Argus* staff will work to provide better service to State students and the Winston-Salem community.

Letter to The Editor

There have been extensive rumors of something going around called a "tissue rash" in the Moore Hall dormitory. What is a "tissue rash"? Well, it's rather self explanatory — a rash resulting from inadequate tissue.

The young ladies have made numerous complaints to the dorm matron, the supervisor, and to the maid about the tissue. They asked: "Why is it that a junior dorm must have the thin, cheap, onionskin sheets of newspaper-like tissue, when the other dorms have the regular, good old rolls of toilet paper?"

The young ladies, considering that times are getting hard, and that the end may be near, would still like a little comfort. So they are continuously trying to contact the right person to get back to the rolls of toilet paper. Maybe it's the

vice-chancellor in charge of toilet tissue and other miscellaneous articles. Who knows? Until that person is found, the tissue harrassed heroines are doomed to walk around grumbling:

"If we were first graders, we may not mind it, but we are juniors in college."

"I'm tired of that hard "waxy" paper."

"I hate it; it's hard . . . it's like using newspaper."

"It irritates me."

"It's just too, too rough. It hurts feminine areas which may later cause greater problems."

And . . .

"Considering the amount of money we have to pay to go here, it looks as if we could afford decent toilet paper."

THE 'HOLE' THING

Most WSSU students will readily admit that holes are great in doughnuts and lifesavers, but they get a little dubious about so many holes on State's campus.

It seems that there is never a time when there isn't at least one hole somewhere on campus. And as if one hole might get lonesome, another is soon dug to keep it company.

The (w)hole trouble is caused by the pipe lines that now serve the University. The pipes, installed during the 1940's, were insulated with a tarlike material called gilsulate. Because this material is no longer serviceably effective, the pipes have developed numerous leaks. In order to patch the leaks, the ground has to be subjected to the "great jaws of the campus eating machine."

Unfortunately, we're just going to have to live with it, at least until summer when one of the pipe systems will be

replaced. Until then, be thankful that you don't have to go to Arizona to get a look at Old Faithful. We've got a revised version of our own.

Discovery Programs Announced

A series of discovery programs has been announced for the Reynolda Gardens of Wake Forest University, to be held March 22, and May 3. The programs will be free and open to the public, but registration is required. Those interested should call 723-6773.

The March 22 program, from 3:00 to 6:00 p.m., will be on the Formal Gardens and will include a tour and a discussion of the plantings specifically related to these gardens.

The Greater, or Natural Gardens will be the subject of the May 3 program, also from 3:00 to 6:00 o'clock. It will include a tour of the nature trails and a view and discussion of the many types of plants to be found in the large acreage composing these gardens.

Paul McGill, Superintendent of the Gardens, is coordinating the programs.

Tenth Muse Schedules Programs

The Tenth Muse, a group of North Carolina poets, will present several programs through May at Reynolda House, all free and open to the public. Sponsored by Reynolda House and Wake Forest University, the group was recently organized to promote the writing, reading, and publishing of poetry.

A Children's Poetry Evening is scheduled for March 22 at 8:00 o'clock.

Jonathan Williams will be presented in a poetry reading on April 19 at 8:00 p.m.

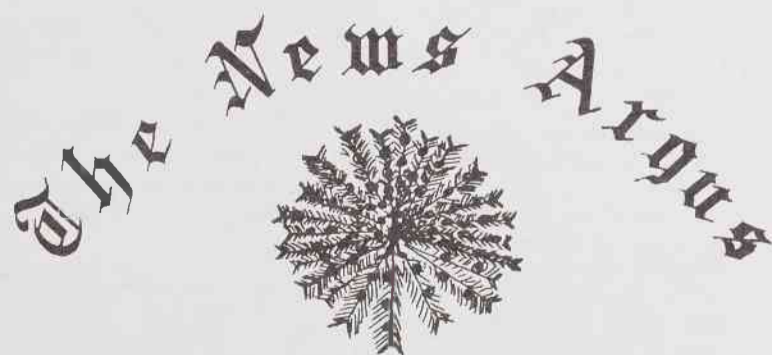

On May 3, at 8:00 p.m., members of the Tenth Muse will give a program, reading their own poetry.

Tenth Muse is also planning a workshop for school children from third

through sixth grades. This will be conducted by Mrs. Emily Wilson, president of the organization, and Mrs. Maria Ingram, secretary and treasurer.

In addition to Mrs. Wilson and Mrs. Ingram, officers include Robert Shirley, vice president, who is assistant headmaster at Summit School.

The Board of Directors is composed of some 22 local and North Carolina poets and writers, including three well known state poets recently added: Ardis Kimzey, Raleigh, coordinator of the State Poetry in Schools program; Tom Walters, English professor, North Carolina State University; and Dr. Louise Gossett, professor in the English Department at Salem College.
