## Grant Applications Available Say HEW

Students still have time to apply for some of the \$122.1 million that is available in the Basic Educational Opportunity Grants program for the 1973-74 school year.

Basic Grants, which are funded by the U.S. Office of Education, are available to first-time students who began their post-high school education or training after July 1, 1973, on a full-time basis. These grants can be used at any eligible instruction including regular colleges, universities, community or junior colleges, vocational or technical schools, and hospital schools of nursing — both public and private, profit and non-profit.

Grants are based on a formula which takes into account the cost of tuition, fees, room, board, books, supplies, and incidental expenses, and the amount the student and his or her family can contribute. The formula is applied consistently to all students throughout the country for the 1973-74 academic year. Awards range from \$50 to a maximum of \$452 for each eligible student.

John Ottina, U. S. Commissioner of Education, said, "Money that students receive under this program is free and clear; it is not a loan that has to be paid back."

Students may obtain an application form for a Basic Grant through their financial aid officer or guidance counselor, or by writing to Box G, Iowa City, Iowa 52240.

The money received under the Basic Grants program in no way affects how much students may receive under other U. S. Office of Education programs. In-

formation about these programs may also be obtained from financial aid officers or guidance counselors. Programs include:

National Direct Student Loan — for students who are enrolled at least half-time in a participating postsecondary institution and who need a loan to meet their educational expenses.

Supplemental Educational Opportunity Grant — for students of exceptional financial need who, without the grant, would be unable to continue their education.

College Work-Study — provides jobs for students who have great financial need and who must earn a part of their educational expenses.

Guaranteed Student Loan — enables participants to borrow directly from a bank, credit union, savings and loan association, or other participating lender who is willing to make the educational loan.

## Shoplifting Law Is Being Enforced

Over the past couple of months many students from this University have been caught shoplifting downtown and also in the shopping centers. Some have gone to jail. The law is enforcing this law to the maximum and the University is also.

The University feels it must take some action, either temporary or permanent suspension, or whatever they feel is necessary. But North Carolina has recently adopted a new law against shoplifting which actually spells out what they can and will do.

Please read this carefully and also remember that a record, even for shoplifting follows you for life.

WATCH YOURSELVES PLEASE!!

The New North Carolina Shoplifting Law states:

Section 1. G.S. 14-72.1 (a) Whoever, without authority, willfully conceals the goods or merchandise of any store, not theretofore purchased by such person, while still upon the premises of such store, shall be guilty of a misdemeanor and, upon conviction shall be punished by a fine of not more than one hundred dollars (\$100.00) or by imprisonment for not more than six months, or by both such fine and imprisonment.

Such goods or merchandise found concealed upon or about the person and which have not theretofore been purchased by such person shall be Prima Facie evidence of a willful concealment.

(b) Any person found guilty of a second or subsequent offense of willful concealment of goods as defined in the first paragraph of this section shall be guilty of a misdemeanor and shall be punished in the discretion of the court.

DON'T SHOPLIFT!!!!
