## Registration Begins January 10

By Pamela McClain

When students return from Christmas vacation, it will be that time "we all look forward to" again----registration.

As always procedures for registration have been developed and must be followed by students in order to avoid mass confusion.

Registration is scheduled for January 10 from 9:00 a.m.-5:00 p.m. and January 11 from 9:00 a.m.-4:00 p.m. and 5:00 p.m.-7:00 p.m. It will be located in C.E. Gaines Athletic Center. Students will register by alphabet and color coded card. Those registering on the first day must have cards with red stripes and those registering on the second day must have cards with green stripes so be sure to check those colors.

The first procedure involves picking up packets and receiving advisement which will be on the balcony of the athletic center. It is important not to report for registration until you have officially been advised in writing and have received a packet.

The second procedure involves three processes. Students should get their fees assessed and make payments at the business office station. Prior to reporting to the business office stations, students who receive financial aid should have cleared the financial aid office. This could avoid being turned around in line.

Next, students should pick up course cards. As you receive each course card, make sure the course number corresponds with the number on your schedule. Also check to see that the total of cards you receive is correct.

You are now ready for packet check out. This process is usually quick and easy but it is not all over yet. You must then report to the old maintenance building, stand in another line and pick up books.

There will be special stations set up for students who wish to acquire a parking permit, a meal card, or an athletic ticket.

Students who need I.D.'s should report to Room 106 Hall-Patterson Communications Building. Veterans and those interested in financial aid should report to stations located on the basketball court.

## WSSU Adds New Major

By Connie Lowery

There will be a new major in the fall for interested electors. According to Dr. Astor Herrell, chairperson for the Department of Natural Science and professor of chemistry, a new chemistry major was approved by the Board of Governors on November 12, 1982 and will be offered in the fall of 1983. The program is a regular bachelor of science degree program in chemistry.

Dr. Herrell says, "It is geared toward ultimately meeting accreditation of the A.C.S., a general bacheloric program in chemistry. Students will be trained in four main areas of chemistry; organic, analytical, and physical."

This gives students preparation for graduate work or meeting qualifications for admission to medical school and for the job market.

Dr. Herrell also states, "We will have a number of items of sophisticated equipment to compliment the instructional program."

### REGISTRATION PROCEDURES AFTER JANUARY 11, 1983 TIME: 9:00 A.M.-4:00 P.M.

#### ACADEMIC ADVISEMENT AND PACKET PICK-UP GENERAL STUDIES, UNDECIDED AND NEW FRESHMEN STUDENTS
