"The SPA Network is a way for us to get together and talk about motivational issues and ideas to help one another," said Deborah Chaney, president of WSSU's network.

The Salary Personnel Act or the SPA Network consists of employees of the State of North Carolina. Middle management personnel who work for the state can also become members of the network.

The SPA Network was organized August 18, 1987, with a mission to use the intelligent creativity skills of all the SPA members. Its aims are to further the university's goals and objectives through enhancing personal growth, developing support groups through positive mentoring, and job training experience.

The SPA Network participates in campus and community functions. The group was quite active during the Chancellor's Investiture. It also sponsors the secretarial luncheons held for the university's secretarial staff,

Currently the network has 74 members, but Chaney says, "Anyone who wants to join us is welcome to join." The network meets on the third Thursday of each month, and dues are \$12, annually.
