

School of Graduate Studies and Research

Winston-Salem State University, one of the 16 constituent institutions of the University of North Carolina system, is committed to excellence in programming for current and future master, doctoral and first professional degrees. Our purpose is to provide students with a superior education for the full development of scholarly and professional capacities.

Winston-Salem State University graduate students:

- Exercise critical analysis
- Engage in scholarly inquiry
- Exhibit a high degree of individual initiative and independence of thought
- Involve themselves directly in creativity and research
- Receive in-depth instruction in their area of specialization
