

Students serve on summer missions

Four Chowan College students devoted their summer vacations as summer missionaries, according to campus minister Tim Wilson, who arranged for the students to gain missionary experience.

Lee Stephens of LaGrange filled a Youth Corps position as youth director at Center Grove Baptist Church in Hudson. Stephens, a junior majoring in science, is the son of Mr. and Mrs. Ellis Lee Stephens Jr. and is a member of First Missionary Church in LaGrange.

Stephens has been elected president of Chowan's Student Government Association for the 1995-96 academic year.

Matthew "Grover" Suggs of Jersey, Va., filled a summer missions position in Homestead, Fla., and worked with disaster relief from Hurricane Andrew. Suggs, a junior and the son of Mr. and Mrs. James R. Suggs, also spent six weeks of his vacation in Orlando, Fla., working in biological research for agricultural missions to Haiti. Suggs, a biology major, is a member of Shiloh Baptist Church in King George, Va.

Arthur Robinson, a sophomore from Laurinburg, traveled to New Orleans to become a summer youth counselor at Suburban Baptist Church. Robinson is the son of Johnnie Robinson and is a communications art major.

Bryan Banks joined the staff at the North Carolina Baptist Assembly at Fort Caswell for the summer. A freshman from Virginia Beach, Va., he is the son of Mr. and Mrs. Amos Banks and a member of Atlantic Shores Baptist Church.

Moving into new home

Moving into Chowan residence halls is always a chore, but parents and friends lend a hand with the many things

needed to set up a dormitory room as a "home away from home."

Whitaker Library now contains new database

Whitaker Library has added "Business Index — Academic Edition," a computer database geared specifically to articles in business journals and newspapers since 1992.

The database resides on the InfoTrac work station, and operates exactly as the "Expanded Academic Index," which students and faculty already use.

"Business Index" will be used extensively to obtain data for personal, scholarly and professional research.
