

AFD1: Aliens Invade Chowan Campus, Cause Trouble

by Ortin Rednuht

A heavily-armed alien attack squadron invaded Chowan last Wednesday, destroying the Columns Building, drinking all the students' alcohol, violated the visitation policy and clogging the toilets. At present the college has not commented on how they will respond to this act of terrorism.

It began early Wednesday morning, when two Squirrel Park freshmen were approached by aliens who they describe as looking "like they came from another planet or something." Following an exchange hindered by a language barrier, the aliens. according to one student "zapped us...with a ray gun that made us late for our 10:00 class." Their professor, unwilling to believe this at first. gave them an absence in the roll book.

By midday the aliens had destroyed the cafeteria and turned most of campus security into compulsive magicians. Unable to do anything but card trick and the Indian rope trick, the situation degenerated in to a state of sweaty-palmed

panic as a huge mother ship, described by witnesses as looking "like it came from outer space or something," settled over Columns. With terrifying swiftness, the Columns Building exploded. A witness on the seen said: "Crap! I'll never get my financial aid forms signed!"

The aliens then took the opportunity to speak to the masses who had gathered at the ruined mass that Columns building had been, and said the following:

1000 \$ 1

A witness on the scene was quoted as saying: "Huh?"

In the meantime, a group of students who had been working to get the latest issue of the Chowan Forum, led by Doctor of Journalism and well-renowned shooter Lewis Smith, managed to defeat the aliens by putting sugar in their gas tank, an act which had the small, and barely noticed effect of taking out all of the trees in Squirrel Park. Several alien survivors were taken out of the saucer and put to trial on the spot.

Dr. Smith recommended "that they should be hung from their heels on iron telephone poles on the way to Ahoskie," as they were "brutes and lazy human scum." This extreme solution was discarded in favor of a mass public pantsing of the aliens, followed by helicopter wedgies for the lot of them. "Their last meal was a beefy can of buttkick," one of the participants in the aliens' punishment said.

WARNING! SMOKE SIGNALS IS A PARODY ISSUE. ALL PEOPLE, PLACES THINGS, ARE ONLY ATTACKED IN THE SPIRIT OF GOOD APRIL FOOL'S DAY FUN.
