SAVE THOSE SHRIMP!!!

(The following conversation between a student and a cafeteria worker was overheard in a lunch line one day at the very end of serving hours.)

Student: Oh come on, can't you give me shrimp too? Look, if I don't eat it, you'll just have to throw it away.

Worker: Throw away? Shoot, we don't throw nothin' away. I worked for the same company out at General Electric and they don't throw nothin' away.

Student: Are you sure?

Worker: Yeah! You can take the shrimp and use it again in something else, like salmon croquettes. We had salmon croquettes the other day. You just put it in with the salmon, it taste just as good, it saves salmon, and they don't know the difference. Shoot, we don't ever throw nothin' away.

Just think, thanks to the brilliantly economic minds in our cafeteria, the next time you eat Lasagna you may in actuality be eating remnants from five different meals dating back as far as three weeks.

STUDENT ELECTION SLATED FOR WEDNESDAY

CONSTRUCTION PLANS COMPLETED FOR NEW STUDENT CENTER

Plans for the new Student Commons Building have been completed by the Architect and actual construction should begin in the very near future according to William C. Herring, Administrative Director. "The architects believe that this building will be the most handsome in its style in Winston-Salem," added Mr. Herring. Because the plans must meet state specifications, they are now in Raleigh being reviewed. This fully air-conditioned, 33,000 sq. ft. building, is estimated to cost slightly more than one-million dollars.

The building is to be located between the new dorms and the present Main Building.

The structure will have the height of a three story building but due to the high ceilings for the gymnasium and indoor swimming pool, there will be only two functioning levels. The first floor will house locker rooms, showers, dressing

SIMON GARFUNKEL TO APPEAR AT DUKE

Fifty tickets have been reserved at Duke for NCSA students to see Simon and Garfunkel. They will be at Duke, Saturday, October 12. The tickets are \$2.50 per person and anyone interested may sign up in the Girls' Dormitory. The bus will leave at 5:30 p.m.

Mr. Hyatt will take any interested students to the mountains Saturday, October 5. The bus will leave at 8 a.m. and go to Grandfather Mountain and Beach Mountain Ski Slopes near Boone, N.C. The fee

will be one dollar.

rooms, weight rooms, tumbling rooms, and exercise rooms in addition to the pool and gym. The building is designed so that any of these rooms may be used while others are closed off.

A Grand Staircase, 27 ft. in width will extend from the lower end (north) of the building to the level of the first floor of our present Main Building. A big "Galleria" will be located on a landing halfway up the Grand Staircase, and will serve as an Art Gallery. At this same level will also be a lounge area with vending machines. A balcony from the top floor will overlook the spacious Galleria. Also on the top level will be a reading room, three conference rooms, several offices for student affairs, organizations and student government as well as a new dining hall.

A feature of the new dining hall is the "scattered system" which means instead of everyone going through one line for a meal, one would go to a specific area for hot meals, another for cold foods, entrees, salads, etc. and another for drinks. The dining hall will seat approximately 300 people. In addition, two small private dining rooms will be available by reservation. The cafeteria will have the most efficient and modern equipment available which should allow for a much larger variety of foods and will have more adequate facilities and space for preparation of foods.

It is hoped that this building will be ready for use either by September or during the next school year.
