

# THE MUSIC PLAYING IN MY HEAD

MIKE FERGUSON

The Stones' *Let It Bleed* begins with *Gimme Shelter* and before it is over you need a bomb shelter. A motion trip. Pure, thumping rock and roll, with Jumpin Jack Flash himself, Mick Jagger, kicking out the jams. No gimmicks, no frills, just Mick's magic funk. The Stones pounding on behind him, the best band in rock, proving that tightness is what makes a group great. The

Rolling Stones are back, better than ever, with the most honest rock since pre-Sgt. Pepper.

Rock depends on motion, on energy conduction, on tension, otherwise it becomes pallid and lifeless. Like the perfect sexual union, the great rock artist brings his audience to a climax. The architects of rock knew this and made it a life-style of the music. The Beatles are successful because they know this. The same is true of the Who. But the Rolling Stones know it best of

all; they are the definitive contemporary rock and roll band.

*Let It Bleed* is dirty, crude, mean and nasty rock and roll, the kind we weren't supposed to listen to as kids because it fostered juvenile delinquency. The music here is everything, and more, that paranoid parents fear rock might be. Best of all, it's the Stones, back again and beautiful.

This music wraps you up and demands you to move. Not just dance,
