NAACP COMMUNITY & HOUSING DEVELOPMENT PROJECT:

By Vincent L. Smith

The St. Augustine's College Chapter of the National Association for the Advancement of Colored People will be conducting a survey. In order to enhance the living conditions on campus, The NAACP members feel it is appropriate to get the ideas of students and those who facilitate housing in the "Aug" vicinity.

During the months of November and December the initial survey conducted was supported by only ten percent of the student body out of some eight hundred surveys. In order to substantiate survey findings, the members feel they need 75 percent to 90 percent of the surveys returned for validity and reliability.

The NAACP Survey Number 2, is constructed in order to improve your living facilities. Please support this effort!!!
