You will note that there was an increase in the enrollment in the College Department, while that in the High School, especially in the lower two classes, showed a marked decline. In the interest of economy and concentration of effort it has been decided to discontinue the first two years of High School and to emphasize the College Preparatory features of the work in the upper two classes. In connection with the College work several evening classes were held for the benefit of teachers and others desiring to pursue college studies, who were unable to attend the regular day session. This plan was worked out with the approval and guidance of the State Educational authorities.

The great loss to St. Augustine's through the death of Bishop Cheshire can be referred to only briefly in this report. Both the President and the Rev. Dr. Hunter, our Honorary President, have told in the *Carolina Churchman* something of the splendid help given to the Institution by Bishop Cheshire during the almost forty years that he served as President of the Board of Trustees.

During Lent a five-day mission with emphasis on personal religion was conducted by the Rev. George M. Plaskett of Orange, New Jersey, a graduate of St. Augustine's and one of our trus-

tees. On Tuesday of Holy Week Bishop Penick visited us and confirmed a class of 15. On Easter Day the Lenten offering for Missions was presented. We were gratified to find it larger than the one of last year.

On May 1st and 2d the Annual State Public Welfare Institute for Negro Social Service and Relief Workers was held at the College. About 100 delegates attended from all parts of the State. The usual St. Augustine's Conference for Clergy and Church Workers, including a Young people's Conference will be held June 5-9th.

The Crown and Scepter, a State wide society of honor students in Negro High Schools, which is being sponsored by the College, held its first general meeting on the campus early in May. The delegates formed a permanent organization. It is confidently expected that this move will have a decided influence on the educational ideals of the State High Schools.

During the year we have offered the facilities of our library, especially our collection of Theological books, to the Negro Clergy of the Province and some of the Lay Workers. So far there has been some response to our offer. We expect the response to increase as time goes on.

We were glad to include as one of the features of the Commencement Season a lecture-recital by Professor Frederick A. Koch, Kenan Professor of Dramatic Literature of the University of North Carolina. Professor Koch had previously invited our Dramatic Club to present a short play at the Annual Festival of the Dramatic Clubs of the Carolinas. With President Graham of the University of North Carolina as our Commencement Speaker, and with Rev. Robert D. Brown, of Pittsburgh, who has the distinction of being the first member of his race to be chosen as Head of the Urban League there, as our Baccalaureate preacher, we have been fortunate in those who have come to us from other places.

In spite of a greatly reduced appropriation from the American Church Institute for Negroes, and other financial difficulties there is no indebtedness on the Institution and every effort is being made to avoid incurring one. To aid in this effort there will be a small increase in the College tuition rates. Our budget is also materially reduced. We are glad to note that the Diocese of North Carolina has included an appropriation to
