

## TEAM NEEDS TEAM NAME

"In spring a young man's fancy lightly turns to thoughts of ..."  
BASEBALL, what else?

This spring Wesleyan College will have an intercollegiate baseball team, a team with uniforms, equipment and spirit, yet a team still without a name. After the teams are named, names for the publications, classes, and dorms can be chosen to tie in with that name.

Often the names for teams come from the location of the school, profession of the namesake, or hobby of the namesake among other things. Wesleyan College is located in tobacco country, and is named for John and Charles Wesley who were instrumental in founding the Methodist Church. Do these ideas suggest any names?

Suggestions for the nickname of the college and corresponding names for the others may be turned into the Publications Room in the box provided so that the team will have a name by its first game, March 13. Think!

Printer.....Joe Ezzell

## COUNCIL-BEGINS

The Community Council of Wesleyan College held its first meeting February 22, which proved to be an organizational meeting for the group. Gary Garlow was chosen to serve as Chairman, Dr. Willard Gatewood, Vice-Chairman, and Susan Black, Secretary. The Council also chose Monday at 12 o'clock for its regular meeting.

The Community Council idea which is new to colleges, is based upon confidence and trust and it will try to establish the "Wesleyan Community through fidelity, service, and integrity." As a group independent of the Student Government Association and composed of representatives from the student body, faculty, and staff, the Council has power to counsel and investigate any area of the Wesleyan Community. Although it has no power to enforce them, it is hoped its recommendations will be heeded.

Anyone who would like to present a matter before the Council should first see Gary Garlow. A matter presented to the Council will be kept in confidential files, and reports and recommendations will be given only upon approval of the Council.

The Community Council program does not list those things which must not be done. It presents a Bill of Rights to the Community with expectations of and for the members of the Community.
