

SUMMER SABBATICALS GRANTED

Summer sabbaticals have been granted to three members of the faculty for the summer of 1968.

Dr. Collins announced that Drs. Raymond E. Bauer, John W. Kilgore and Jack E. Teagarden have been granted the sabbaticals for travel, research and study in their respective teaching fields.

Dr. Bauer, associate professor of education, will engage in a seminar and field trip entitled "Contrasts in Culture and Life Under Communism," which is being sponsored by several national education societies in cooperation with Kent State University. Included in the plans are travel and study in Germany, Czechoslovakia, Hungary and Russia.

Dr. Kilgore, chairman of the department of chemistry and physics, will spend the summer on the Wesleyan and Duke University campuses doing research in the chemistry laboratories. He will work closely with Dr. Pelham Wilder, Jr., his graduate research director at Duke, in an attempt to or

throughout the country. The Wesleyan group waited until the college received full accreditation before forming its chapter.

The AAUP is dedicated to defining and defending conditions acceptable to the profession. It examines professional ethics, freedom, tenure and teaching.

ganize and develop a research program at Wesleyan.

Dr. Teagarden, chairman of the Humanities Division, will visit museums and galleries in Florence, Rome, Salzburg, Paris, London and Stratford, collecting materials to aid the development of the humanities program and to further his personal literature study. In addition, he will continue his research on sixteenth century

stage-directed polemics.

Finances for the sabbaticals are being provided by the College's budgeted fund and through a grant from the Knapp Fund which was awarded to the college to assist its faculty in programs of study, enrichment and professional growth.

DEAN WILDE'S PARTY A SUPER SURPRISE

WESLEYAN STUDENTS HAVE NO CLASS

Why is it that Wesleyan students will not have the opportunity to attend a formal dance at their school this academic year? If some student really has the desire to attend a formal affair, why is he not allowed to? Many people feel that a dance held in a formal manner is a much more mem-

orable affair than a semi-formal occasion, to say nothing of the "Sock-hop" affairs in the cafeteria. Why is this? Because perhaps more time and effort is put into the evening than just a few decorations and a live band, which is what the normal Wesleyan dance boils down to.

Perhaps some people sincerely don't want a formal dance. They may be the kind who have no desire for the

type of dance to which they are not accustomed. This is perfectly logical, and in no way undesirable. But the fact that these people (who just might possibly be in the MINORITY) are setting the pace, and functioning in such a way that NO Wesleyan students get the chance to go to a formal dance, perhaps is very unfair.

If no one cares that much about the social life here to do anything about this situation, or at least even ponder the alternatives, a re-evaluation of values may be in order. Events must be planned far, far in advance. If it is too late this year to attempt organizing a Spring Formal, or something along that idea, something should be done about its possibility of inception during the '68-'69 school year.

GRAPPLERS ARE STRONG CONTENDERS

By Tony DeMuth, Jr.

Depth and experience are the by - word for the Wesleyan Wrestling team this year. Several returning grapplers, depth in each class, and a new coach, should spell great success this year. Returning grapplers are Whit Blackstone and Nat Railey (DIAC Conference Champions), and Tony DeMuth. Joining the team this year are men with previous high school experience. The high points seem to be in Tom Underwood. A 6 ft. 2 in. freshman who weighs in at 143 pounds, he should be top man in the conference in the 137-pound class. Jenks Davenport, although relatively inexperienced, has tremendous strength which will help as he fills the vacated 160-pound slot.

So all in all, this year looks like it will be the best in Wesleyan's wrestling history. With a second place position in the DIAC last year, there's not but one way the team can go - Number 1.

One highlight this year is in Jack Hart, the new coach. Mr. Hart may be remembered from last year as the striped-shirt gentleman who officiated the home matches and DIAC Wrestling Tournament. After wrestling in high school, he was on the Duke team for several

years. Last year he helped the team as his schedule permitted, but this year he will be able to participate in a full time role. His knowledge and experience should prove to be a great asset.

Coach Music will be the assistant Coach and work with the team also.

The one weak point will be at heavyweight with the loss of Leon Anderson. Skip Williams will be called upon to fill this vacancy. Although he is small as heavyweights go, his coordination and quick reflexes should be the compensating factors.
