Pi Epsilon's Man, Music, Is Ugliest

Tom Mowbray, President of Wesleyan's Omicron Rho Chapter of Alpha Phi Omega, announced last Friday that "Bubbles" Music, Pi Epsilon Sorority's candidate for Ugliest Man On Campus, had had the honor confirmed by the voters. Music won when, with only a short time left for voting, the two fraterni-

ties threw their support to Pi Epsilon, topping the leading candidate until that time, Dave Siple, who represented Wesleyan Players.

Funds raised by the UMOG contest will be used by APO to further their activities with the Stoney Creek Fire Dept. and Rescue Squad.

Spring Assemblies To Begin This Week

Jess Blackman, SGA President, and Dr. Wilde, Dean of Students, announced recently a series of five Tuesday morning assemblies to be held this spring.

The programs center primarily on the social alienation of youth and on the use of drugs by youth. The formats of the presentations include color films, lectures, and discussions. Speakers will include Dr. Louis

Harris, Associate Professor of Pharmacology, School of Medicine, University of North Carolina at Chapel Hill. Dr. Harris is a leading authority on hallucinogenic drugs.

The March 18 and 25 assemblies will be open forums for students; at these assemblies any student may speak on any subject of his choosing, though he must notify Jess Blackman in advance of

Above: Barbara Brown, one of the students interviewed in examination of cafeteria.

his desire to speak. Blackman calls the open forums "an opportunity for any student to get things off his chest;" a question - and - answer period will follow these speeches.

Honors Award Convocation, April 10, will conclude the Spring Assembly Programs, according to Blackman. Attendance at these assemblies, he said, will be on a voluntary basis.

Students Criticize Cafeteria

By MARSHA WHITE

For the past several weeks, The DECREE has printed different views concerning the food and services in the cafeteria. This week the students themselves were interviewed. Approximately fifty students were asked their opinions of the food and services in the cafeteria.

Probably the most praised items served in the cafeteria were the lasagna, spaghetti, and iced tea, while the hamburger served "under different names" was probably the least acclaimed.

About half of the students stated that a good assortment of food is available in the cafeteria. Most of them agreed that it could be much better if some of the grease were removed, if it were cooked in a greater va-

riety of ways, and if it were kept warm throughout the serving time.

Although few students complained about the attitude of the people in the serving line, most of them did admit that the student attitudes toward the help were not always the most desirable.

Many students expressed the need for a greater variety in beverages and recalled the few times lemonade had been served and asked that this drink be made available more often.

Students, who are forced by necessity to eat lunch in the cafeteria after one o'clock because of a twelve o'clock class, complained about the shortage of food and the lack of enough time in which to eat.

Library Gets Photocopier

Bound volumes of the Congressional Record covering the years 1964-66 have recently been added to the periodicals collection of the Wesleyan College Library. The volumes, which contain Congressional speeches, debates, and a record of votes on bills in both House and Senate, cover the 2nd session of the 88th Congress and the 1st and 2nd sessions of the 89th Congress. Later this year the library will receive bound volumes covering the 90th Congress (1967-68).

The set includes a detailed subject index, history of all bills and resolutions passed, and a cumulative daily digest of action in both houses of Congress. These volumes were obtained through the courtesy of Senator B. Everett Jordan, junior senator from North Carolina.

Since the beginning of the 91st Congress in January of this year, the library has received daily issues of the Congressional Record from the office of Congressman L. H. Fountain. The current

NCW Students Help Clinic

By TOM MOWBRAY

Several Wesleyan students have volunteered to be big brothers and sisters for underprivileged children in both Nash and Edgecombe Counties.

The idea for such a program originated with the Wesleyan Chapter of the Student National Education Association. Staff members of the Edgecombe - Nash Mental Health Clinic came to a

regular meeting of the S.N.E.A. and introduced the program. Response has been good but there are still many more children who would benefit from the type of "tutor-friend" relationship which this program seeks to promote.

Student volunteers are briefed as to the specific problems of the case which they are to work with as a means of directing their efforts. After this consultation, the student is allowed to proceed in any manner he wishes.

Tutors set up a regular schedule of meetings according to the time which best suits both the tutor and his pupil. The tutor usually finds himself very much involved with the problems of his student. Drawing on experience gained through his adolescent years, the tutor advises on a basis of friendship rather than on the authority of a parent, doctor.

issue of the Record is kept in the browsing room, and back issues are shelved in the stacks. Wesleyan College Library has also recently obtained a new coin-operated photocopier, which students can use for copying class notes, personal papers, etc., as well as reference books and periodicals. Said Mr. Stewart, Librarian: "We hope that the addition of this equipment will give students more freedom and convenience in their work."

Several thousand people listened to his mixture of comedy and serious message to the youth of America. He called this generation "probably the most morally dedicated and committed group of youth in his-

tory." Later he stated, "You youngsters, you've got a big job -- the job of saving this country."

"I say to you youngsters as you work to change the system, please let your number one point of order be these colleges and universities across the country. Please, please make them meaningful, and they will go out 100% to educate you, but not to indoctrinate ...Ninety-eight% of all colleges in America do not know how to educate, but they do know how to indoctrinate."

CANADIAN POET TO APPEAR HERE

Ronald Bates, a leading Canadian poet, is scheduled to appear here at 8:00 p.m. March 3 in the Experimental Theatre. Holding the B.A., M.A., and Ph.D. degrees from the University of Toronto, he is Associate Professor of English in the University of Western Ontario.

He will read from his books of poetry, including The Wandering World, Changes, and The Unimaginable Circus.

Bates' reviewers have written of his work:

"There is nowhere in The Wandering World that we do not feel a contact with a richly suggestive intelligence. We go from the open world of endless space to the contained world of the mind, and from exploration to self-knowledge ..." Writes Northrop Frye: "Mr.

Bates seems to me a romantic poet, in the sense that he often uses abstract and unvisualized language but is keenly sensitive to evocative sound.

Gregory To Youth.. 'Save The Nation'

By GLENN RHODES

Recently, we attended "A Night With Dick Gregory," presented by the Duke University Afro-American group in Duke's Page Auditorium. Mr. Gregory is a successful comedian who is now a committed activist for a "Humane world." In 1968 Mr. Gregory ran for president, receiving many thousands of votes.

Several thousand people listened to his mixture of comedy and serious message to the youth of America. He called this generation "probably the most morally dedicated and committed group of youth in his-

tory." Later he stated, "You youngsters, you've got a big job -- the job of saving this country."

"I say to you youngsters as you work to change the system, please let your number one point of order be these colleges and universities across the country. Please, please make them meaningful, and they will go out 100% to educate you, but not to indoctrinate ...Ninety-eight% of all colleges in America do not know how to educate, but they do know how to indoctrinate."
