Composing Staff - Addline Hill, Ruth Ellington and Bertha Hester

I can do all things in Him who strengthens me. --(Phil. 4:19)

God created us with infinite potential to be a self-motivated, forward looking, positive-minded individual. In looking beyond the mists of doubts, fears and anxieties, we will find new and miraculous ways to use our power that comes from the Spirit. Minimize the appearance of negation, and real opportunities for growth, progress and success will be revealed.

Jerald Wyssman graduated from Central State College in Edmond, Oklahoma. He is the husband of Sue Wyssman, Greige Goods Department, Plant 19.

People seldom notice old clothes if you wear a big smile.

A Man's Attitude . . .

A great many people these days complain that their work is boring. The tendency is to blame the job for lack of challenge. What usually makes work drudgery, however, is a man's attitude--not the work itself.

No task need be boring, for the simple reason that every job contains within it a hidden challenge. That challenge is this: How can it be done better?

Could anything be more boring than sweeping floors? Murray Spangler, a department store janitor in Canton, Ohio, didn't think so, even though the dust made him wheeze and cough. Many men would have given up and quit. Instead, Spangler set out to find a better way to clean floors. "Why not eliminate the broom," he wondered, "maybe something that would suck up dust. . .?"

Spangler's question led to a crude but workable vacuum cleaner, which he induced an old friend in the leather business to finance. The friend's name was H. W. Hoover.

Steven Hedgecock has returned to his job at Plant 3 after serving a tour of duty with the 312th Evacuation Hospital.

Steven was ordered to active duty on October 23, 1969, at Fort Polk, La. After completing his eight-week basic training assignment, he continued a period of advanced individual training. Later, he was given specialized training in mess management and received training as a mess clerk. Steven was one of the top ten in his class. He was released from active duty on March 6, 1970, but will continue to fulfill his military obligation by training with the Army Reserve on weekends.
