KERNERSVILLE PLANTS

Not many people can plunge 250 feet down a mountainside in a small automobile and walk away almost unscathed, but Eva Rothrock and her three children did. Eva and her children were on their way to Virginia to visit her sister when she took the wrong exit on State Route 16. It was raining and the road was slick; when she hit the brake to slow down, the car skidded, hit a post, and then went down the side of the mountain. The Rothrocks were terribly fortunate to have escaped serious injury. Eva's youngest son was the only one to have sustained any injuries at all, and they were only cuts and scratches. A week after the incident Eva qualified for her supplemental attendance pay.

Welcome back to those who have been out on sick leave: Kat Albert, Vera Beane, Barbara Lane and Macy Beeson.

Kate Spillman's son, Donny, graduated from Gardner-Webb with a Bachelor of Science degree and is continuing his education in Paris.

Good luck to Anise Prince and Margaret Montgomery who have transferred to another plant. Hope they enjoy their new jobs.

The pairing department misses Gladys Carri-gan and Nettie Brodgen. Hope they will soon be on the mend and back in the plant.

New homeowners are Bobby and Sue Leonard. Hope they can get settled quickly.

Congratulations to the two "little graduates"--Teresa Lackey, daughter of Delores Lackey, and Lisa Canada, daughter of Ann Young. Both young ladies stuck it out to complete their educations and were honored at commencement exercises--from kindergarten.
