A SHOWER FOR THE NEW POP — Not wanting to shock him with all the dainty things needed by a new baby, the dungaree department last month took up a collection and presented it to Arthur Royals who used to work in that department before being transferred to engineering. Presenting congratulations for their department are the two supervisors, Ludie Mae Ingram and Judy Hendren and Ossie Wright, in charge of the company's training program. By the way, it was a girl, born September 30 and named Susan Elaine. Congratulatsn, Arthur and Doris!

There is very little news to report this month. It seems no one has been anywhere, or done anything, had any visitors, or wanted any.

Several of the boys have attended the various fairs around but it seems none of them looked at the agricultural exhibits — and the remarks they have been making about what they did see would have to be censored.

The results of the World Series games brought some varied reactions. Some of the boys were delighted (they won), some of them

were disappointed (they lost), while others didn't seem to care (they broke even).

Anyone who has a freezer and is interested in a quarter of beef at a good price should see Byron "Sophia" Farlow on the second shift.

Paul Ellis has his fourth car in about as many months. Hope this one's not a lemon.
