

LIFE IN A TRAILER IS FUN! — GERALD DEAN HIATT, ABOVE, CENTER, IS MAKING COFFEE IN THE COMPACT KITCHEN OF HER TRAILER HOME. LOWER LEFT SHE AND ROBERT LOOK OVER THE EVENING PAPER AND LOWER RIGHT AN EXTERIOR VIEW OF THEIR HOME ON WHEELS CAN BE SEEN AS GERALD DEAN GREETS HER HUSBAND.

Trailer Life Is Fun!

Geral Dean McGaha has reported to Sew It Seems that she has taken good advantage of Leap Year and now, as of January 19, is Mrs. Robert Eugene Hiatt.

Actually the "Leap Year" idea wasn't a factor in GERAL DEAN'S marriage at all, we know, because she's a real cute girl and Robert Eugene should consider himself a lucky young man.

Geral Dean and Robert were married in Chesterfield, S. C., and they have moved into their new home, which is a trailer located off the new super-highway near the Thomasville Road.

The newly-married couple report "Life in a Trailer" is wonderful and a trip by Sew It Seems photographer to their home brought back the pictures accompanying this article, as proof of this fact.

The trailer is about 27 feet long by 10 feet in width. Everything to be found in a regular-size home is compactly fitted with living room, kitchen, bedroom and bath conveniently arranged.

In the picture at top GERAL DEAN makes coffee in her kitchen. She and Robert look over the evening paper in the picture and in the lower right photograph, they are shown at the entrance to the trailer.

Robert is associated with Power Wire Products. GERAL DEAN has been with Anvil Brand approximately a year.

Mother: "Stop asking so many questions. Don't you know that curiosity killed the cat?"

Small Daughters: "Is that so? What did the cat want to know?"

FAREWELL TO JOHN—John Turner, who became known to most of Anvil Brand's employees during the two years he served in the mailing office, has resigned to volunteer for the Air Force. John is shown center at left as employees of Hudson office honored him at a farewell luncheon last week. John seems mighty pleased at the gift he's opening. Everyone gave him their best wishes for a successful military career.

We would like to know how an automobile tire knows when you are all dressed up and in a hurry to go somewhere, to go flat.
